

SIDDHARTHA DEY

+91-9874477223

in siddhartha-dey-5632495a/

siddh.dey@gmail.com

A multi-faceted & and result-oriented professional targeting challenging assignments in Project Management, Customer Service Operations, Technical Integration, & Radio Access Network Quality across Telecom, Technical Auditing Firm or Data Center Operations Industries.

Core Competencies

Radio Network Cloud Deployment

Network Installation, Integration, & Configuration

RAN Operations Management

Incident Management/Maintenance

Site Management / Node Expansion

Feature Implementation & Network Tuning

Business Continuity Planning (BCP)

Project Management

Audit Management

Troubleshooting and Support

Quality Assurance

Risk Assessment & Mitigation

Team Building & Leadership

Customer & Stakeholder Management

Soft Skills

Education

- B.Tech. (Electronics & Telecommunication) from West Bengal University of Technology, India (2005) with 7.9 CGPA

Certifications

- Certified in "Google Certified Project Management" for Waterfall, Agile Project Management Methodologies
- Trained in NR & ORAN Architecture from NexG Noida (info@nexg.in)
- Studying CKA and AWS from Udemy

Profile Summary

- Innovative and results-driven professional with **over 17 years** of proven track record in Network Operations & Project Management, Configuration & Fault Management, RAN Quality Management across Telecommunication industry.
- Dynamic telecommunications professional with a proven track record in spearheading critical initiatives in **radio network cloud deployment**, managing **OEM coordination**, and optimizing network performance.
- Expertise in managing and optimizing Radio Access Networks, **network installation and configuration**, IP creation, signaling trace analysis, and effective collaboration with cross-functional teams.
- Recognized for proficiency in **software onboarding**, Helm installations, and extensive troubleshooting, leading to enhanced system efficiency.
- Demonstrated success in **live troubleshooting**, **customer satisfaction management**, and resource quality development.
- Leverages comprehensive expertise in **ZTE Netnumen OSS/EMS** and actively fosters a continuous learning culture within teams.
- Proficient in ensuring **operational efficiency**, fostering a culture of continuous improvement, and achieving exceptional customer satisfaction through strategic resource management and quality assurance practices.

Career Timeline

Work Experience

Oct'18-Nov'23: Essjay Ericsson India Pvt. Ltd., Kolkata as RAN Quality Lead

Key Result Areas:

- Radio Network Cloud Deployment:** Pivotal in the deployment of radio network cloud as microservices, involving both horizontal & vertical scaling.
- OEM Coordination and Lab Deployment:** Coordinated with Original Equipment Manufacturers (OEMs) and deployed solutions in a lab environment to verify connectivity from RRU to DU to vCU.
- Software Onboarding and Configuration:** Managed software onboarding tasks, including Docker images for vCU-CP and vCU-UP. Ensured proper configuration, value file creation, and IP configuration for FH/MH and BH.
- Helm Install and MO Configuration:** Executed Helm installations and MO configurations after successful installations. Conducted call tests to validate system performance.
- Daily Traffic Report and Performance Monitoring:** Circulated daily traffic reports for 5G/LTE/2G networks to customers. Checked and reported on the alarm and performance of newly deployed Samsung e/g NodeB CDU50 & AIR.
- BCP Incorporation and Node Configuration:** Incorporated Business Continuity Planning (BCP) as required. Managed the configuration and troubleshooting of 2G & LTE nodes.
- Feature Implementation and Network Parameter Tuning:** Implemented new features and tuned 2G & LTE radio network parameters in accordance with NPI guidelines.
- ZTE Netnumen OSS/EMS Proficiency:** Demonstrated proficiency in ZTE Netnumen OSS/EMS, including configuration, fault management, & performance management modules.
- Field Engineer Support and Testing:** Conducted performance testing, ping & trace log collection, and provided support for clock and MME & SGW connectivity issues.

- 🔧 **Live Troubleshooting and Support:** Engaged in live troubleshooting for issues such as low throughput, UE latching, RF interference, and VOLTE call voice cracking & call muting. Provided support for fault & trouble ticket management.
- 🔧 **Efficiency Enhancement:** Cultivated a safety-focused culture among field resources by implementing effective communication & visual representations and ensuring team using Gensuit tool for incident or near miss reporting. Achieved "zero" man-hour loss & established an environment promoting open, constructive feedback on critical matters.
- 🔧 **Time Optimization:** Reduced site handover time from 56 to 25 days, boosting operating revenue through streamlined processes and efficient technology implementation.
- 🔧 **Effective Collaboration:** Utilized WFM tools like Asana and FSM for assigning and tracking progress, ensuring adherence to timelines and scope completion, resulting in a decreased deployment cycle.
- 🔧 **Audit:** Managed technical audit (VSWR threshold, block TRX, Zero traffic cell, interface utilization etc.), backup audit (BSC, RBSC, EMS, NMS, TX server etc.). Maintained audit register and sign off with customer.
- 🔧 **Effort Estimation:** Led top-down effort estimation for resource requirements. Calculated average time/site and total effort in hours.
- 🔧 **Workforce Management:** Ensured consistent use of IFS network tool for WFM. Managed scheduling and resource allocation efficiently.
- 🔧 **Incident Handling:** Coordinated trouble ticket (TT) generation using Telegram BOT and Remedy tool. Followed risk management, incident response, and DR plans.

Dec’17-Oct’18: Reliance SMSL (JIO) as FTTH Quality Engineer

Key Result Areas:

- 🔧 **Management Reporting and Oversight:** Reported directly to the FTTH head, overseeing the impactful delivery of customer needs through effective resource management and quality assurance.
- 🔧 **Resource Quality Development:** Developed adequate resource quality for new products and services by identifying and addressing resource bottlenecks.
- 🔧 **SLA Monitoring and Coordination:** Monitored Service Level Agreements (SLAs) and coordinated essential training programs to ensure the timely and efficient delivery of services.
- 🔧 **Continuous Learning Culture:** Actively fostered a culture of continuous learning within the team, promoting professional development and enhancing skill sets.
- 🔧 **Quality Assurance:** Optimized resource quality for new products & services through bottleneck identification, SLA monitoring, coordinated training. Achieved a 99.95% resolution of support tickets within SLA, with a customer satisfaction score of 8.2.

Jul’14-Dec’17: TATA Teleservices Ltd. as RAN SME

Key Result Areas:

- 🔧 **2nd Level Lead - Radio Access Network (RAN) for Managed Services (MS) Project:** Led the 2nd Level team in the domain of Radio Access Network for the Managed Services Project at TTSL in Durgapur, West Bengal.
- 🔧 **Network Installation and Configuration:** Spearheaded the installation, commissioning, and configuration of ZTE BSC, RNC, iTC, BTS, Node B on Linux platforms with Oracle databases.
- 🔧 **Switch & Router Configuration:** Executed the installation, commissioning, & configuration of Cisco and ZTE L3 switches & Cisco routers.
- 🔧 **IP Creation and Monitoring:** Implemented GboIP and AoIP creation and monitored their utilization for efficient network performance.
- 🔧 **Signaling Trace Analysis:** Proficient in taking signaling traces in BSC/RNC to analyze call drops, poor KPIs (e.g., ASR, HOSR fail) in coordination with the Core team.
- 🔧 **Network Optimization and Rehomings:** Conducted rehomings of BTS/NodeB based on utilization and disaster recovery requirements. Rehomed BSC/RNC to different MSS/MGW as per planning requirements.
- 🔧 **RF Team Support:** Collaborated with the RF team to identify the root cause analysis (RCA) of KPI degradation and resolved customer complaints related to network performance.
- 🔧 **Cost Optimization:** Successfully planned, developed, executed, and managed Opex-saving initiatives in a phased manner, ultimately saving 1.2 Cr./month after phase 1.

 Previous Work Experience

July’09-July’14: ZTE Telecom India Pvt. Ltd.

Growth Path / Assignments Handled:

July’09-Feb’11: Cluster Lead

Feb’11-Apr’13: L2 RAN

Apr’13-July’14: Project Implementation Lead

Jan’06-July’09: 3Guys (ARP of Nokia)

Growth Path / Assignments Handled:

Jan’06-Feb’07: OMCR Engineer at Kolkata Bharti MS

Feb’07-May’08: Field Engineer at Kolkata Bharti MS (West Cluster)

May’08-July’09: Project Engineer at Kolkata Aircel project (Commercial launch)

 Personal Details

Date of Birth: 12th March 1984
Address: Hindmotor, Hooghly, West Bengal
Languages Known: Bengali, Hindi, & English
