Quality Analyst - Infrrd

3.5years of experience in Manual, Functional, API Testing, Automation Testing using Selenium Webdriver & Java, Robot Framework, UiPath, TestNG, Azure DevOps, Usability Testing, SDLC, STLC, Postman, MySQL, Python, JIRA, Zeplin, BrowserStack, Agile & Scrum framework

DOB – 22/10/1984

Gender - Female

Marital Status -
Single

Quality Analyst with more than three years of experience with great attention to detail and a commitment to developing and implementing continuous improvement initiatives through the collection and analysis of data and converting it into actionable information.

Work Experience (3.5 years)

Mortgage Insurance Web Application

June, 2020 – PRESENT

This project aims to build virtual brokerage business that is enabled by a state-of-the-art real estate transaction management platform. Agents/brokers/coordinators/etc. can use this platform to interact & carry out tasks with home buyers/sellers in a consistent, timely and accurate manner.

Roles & Responsibilities

- Implemented UI automation framework using Selenium Java for functional requirements (Unit/Component/end to end scenarios)
- Collaborated with developers and product owners to stay current on product features and intended functionality.
- Executed usability testing on Windows, Android and iOS mobile devices
- Authored and maintained well-organized, efficient and successful manual test cases for the entire team.
- Mentored team members in Selenium software.
- Worked on Azure Devops for Test Planning & Management -writing test-cases, running manual test plan, etc.

Skills

Automation Testing with
Selenium & Java,
Manual Testing, TestNG,
UI Path,

Robot Framework,
Azure DevOps, Postman,
MySQL,

Python, JIRA, Zeplin,
BrowserStack, API
Testing with Postman,
Maven, PyCharm,

GitHub, Regression Testing,
Agile & Scrum framework,
Test Planning &
Documentation

Intelligent Document Processing Solution

March, 2020 – July, 2020

This project involved high-quality data extraction from complex, unstructured documents. The solution is used to extract data from old documents to stamps and handwritten notes to receipt.

Roles & Responsibilities

- Design and develop automation scripts using Selenium
- Created and optimized test cases to maximize success of manual software testing with consistent, thorough approaches.
- Participated actively in Functional Testing, Usability testing, Compatibility testing, Retesting, Regression testing
- Execution of selenium Test Cases and Reporting defects by using Jira.
- Prioritize test scenarios and create execution plans for scenarios

UiPath – Engineering Drawing Data Extractor

December, 2019 – February, 2020

A project on UiPath connector to extract data from Engineering Drawing diagrams. It is a packaged product that is built on Infrd's AI-native Intelligent Document Processing platform.

Roles & Responsibilities

- Implemented RPA test automation in UiPath and executed test suites.
- Tested all aspects of the Custom connector like workflow, components, system, etc.
- Co-ordinated with Business Analysts, Development teams and Business to identify and capture test scenarios, test cases.
- Worked on daily/weekly test execution status reports generation & share across with respective stakeholders
- Streamlined the testing process within the project

Expense Management SaaS Application

April 2019 - November 2019

A SaaS application that provides expense and accounts payable solutions for complex, global enterprise organizations. It is a highly scalable system that involves processing more than 10,000 expense reports from thousands of employees each month.

Industry Experience

- Mortgage Insurance
- Real Estate
- Expense Management

Strengths

Excellent Problem Solving, Analytical &

Ability to learn new technologies faster.

Strong Technical skills in Selenium Webdriver.

Innovative, Enthusiastic and Good team member.

Good communication skills to interact with clients and within the team.

Education

**Bachelor of Technology
(Electronics & Communication Engineering)**

Uttar Pradesh Technical University, Lucknow (Uttar Pradesh)

Languages

English & Hindi

Roles & Responsibilities

- Provided regular updates to team leadership on quality metrics by communicating consistency problems or production deficiencies.
- Extensively involved in Preparing and Reviewing of Test Cases.
- Developed test scripts utilizing comprehensive business requirements, functional documentation and processes.
- Well acquainted with the Software Development Life Cycle (SDLC) & Software Testing Life Cycle (STLC).
- Experience in Functional Testing, Regression Testing, Retesting, API, Testing, UI Testing, Cross Browser & Compatibility Testing of software Applications.
- Experience in Preparing Test Data as per requirements and Executing Test scenarios.
- Participate in design reviews and provide input on requirements, product design, and potential problems
