Highly skilled Python Django Developer with a proven track record of developing and maintaining complex web applications. Experienced in writing custom Python code to extend Django applications, collaborating with other developers, and integrating third-party services and APIs. Achieved significant increases in user engagement, revenue, and application functionality, while reducing development time and improving overall code quality.

EXPERIENCE

Senior Software Developer

Feb 2018 - Present

Neurobyte Ventures Pvt. Ltd., Mumbai

- Contributed to US based Energy Tech Startup for Energy data management and analysis software that provides virtual grid analysis to help make shared solar systems for all the users.
- Dexterously integrated assorted third-party functionalities using Python and Node JS in the backend frameworks.
- Created functions and assigned roles in AWS Lambda to run Python scripts to perform event driven processing.
- Contributed to a UK Regulatory Tech Startup's core team for 3 years since inception.
- Led API and service development with Django, managed multiple ETL processes, and headed a team delivering over 100 web scrapers.
- Expertly incorporated various third-party features using Angular within the front-end architecture. Skilfully identified, diagnosed, and rectified numerous high-priority production bugs.
- Proficient in leveraging diverse AWS services such as EC2, S3, Lambda, SQS, SNS, etc to achieve comprehensive solutions.
- Demonstrated adeptness in pinpointing, analyzing, and swiftly mitigating a multitude of critical production bugs.
- Using AWS Cloudwatch to setup alerts for different AWS services which helped in reducing AWS costs by optimizing AWS services.

Test Engineer

Aug 2017 - Dec 2017

Bhavam Telepack Pvt Ltd, Mumbai

- I have undertaken a diverse array of professional software and hardware testing tasks, spanning across a wide spectrum of smartphone models.
- My adeptness is evident in the formulation and meticulous execution of intricately designed test cases. Furthermore, I have taken on the role of meticulously overseeing the rigorous evaluation of these test cases.
- This multifaceted engagement underscores my unwavering dedication to guaranteeing the peak operational efficiency and performance of smartphone devices, even within a multitude of varying scenarios.

Test Engineer

Jul 2016 - Jul 2017

Xillion Telecom Private Limited, Mumbai

- Professionally engaged in an extensive range of software and hardware testing activities encompassing various models of smartphones.
- Demonstrated expertise in crafting and executing meticulously designed test cases, while also assuming the responsibility of overseeing the rigorous review of these test cases.
- This multifaceted involvement underscores a commitment to ensuring the optimal functionality and performance of smartphone devices across diverse scenarios
