Highlights

Education: IIM Shillong(MBA)–78.38% | **University of Mumbai**, Terna Eng. College (BE in Computer Eng.)–7.81 CGPA
Work Experience: WNS (Sr. Consultant) | Wipro (Data Analyst)
Skills: Credit Risk Modelling | Logistic Regression | Support Vector Machines | Random Forest | Gradient Boosting | Machine Learning – Predictive Analytics | Statistical Modelling | Descriptive Analytics
Technical Skills: Python | SQL | MS Excel | MS PowerPoint
Professional Accolades: Secured 2nd rank in the training exam conducted by Wipro and promoted to Bin 1 within 3 months after joining

Professional Experience - Available for immediate joining

WNS Limited		May'22 – Apr'23
Senior Consultant, Insurance Solutions	- Understood the client requirements to develop solution which also involved designing analytical solutions to drive value generation and efficiencies by improving client processes - Conducted Market Research for various regions and Data crunching and analysis on findings - As part of the solutions team, headed the end-to-end RFI/RFP process for outsourcing deals in the Insurance Industry	
Wipro Technologies Limited		Oct'18 – Apr'20
Data Analyst, Data Analytics and Artificial Intelligence	- Created data pipelines and administered processing for a Global Investment Bank. - Performed data analysis such as transformation of data, generating summarized/aggregated views, descriptive analytics to drive value generation for the client - Answered ad-hoc request of clients such as creating visualization reports, solving client queries, etc.	
Summer Internship		Apr'21 – May'21
Business Analyst, Mangal Credit Fincorp	- Credit Risk Modelling - Developed a Credit Risk Model in Python based on Advanced Internal Ratings approach (IRB) to predict Probability of Default (PD) using Logistic Regression and performed model validation to compute Expected Total Loss (EL) - NBFC and Gold Loan Industry Analysis - Examined the buying behavior of the customers and identified trends in the industry using SWOT, PEST, etc.	

Projects Undertaken

Udemy, (As a part of certification - Python for Data Science and Machine Learning Bootcamp)	- SVM for prediction of breast cancer - Built a SVM model, to perform prediction of breast cancer based on descriptive data provided for tumor. Tuned the parameters to achieve an F1 score of 95% - Customer Churn Prediction - Built a predictive model to determine the churn of the customer in T+2 months using KNeighbors, Random Forest, and Gradient Boosting (GB). GB algorithm performed better than the other algorithms based on validation methods and achieved average accuracy of ~87%	2023
IIM Shillong (Analytics)	- Random Forest Algorithm to classify the presence of Kyphosis after operation - Implemented algorithm using 100 estimators to classify whether Kyphosis was present/absent after the operation. Model achieved an F-score of ~80% - Multiple Linear Regression for predicting the value of Real Estate - Performed Linear Regression using features such as Avg. Area Income, Avg. No of rooms, etc. Model achieved an R² of ~92 %	2021 2020

Certifications & Achievements

Certifications	Accomplished certification - Get Started with Python authorized by Google via Coursera	2023
	Accomplished program - Python for Data Science and Machine Learning Bootcamp', Udemy	2023
	Accomplished program – Credit Risk Modelling in Python 2023, Udemy	2023
	IBM: DA0101EN - Data Analysis with Python, authorized by IBM Developer Skills Network	2023
	IBM: PY0101EN – Python for Data Science, authorized by IBM Developer Skills Network	2023
	DAT201x: Querying with Transact-SQL, edx, authorized by Microsoft Limited on the basics of T-SQL	2016
	DAT204x: Introduction to R Programming, edx, authorized by Microsoft Limited on the principles of R	2016
Academic	Published survey paper-Different techniques for Mob Density Evaluation in IRJET, Volume 05, Iss. 03	2018
Co-Curricular	Campus finalist in TUP competition conducted by Reliance and held on January 2021 by D2C	2021
	Campus finalist in WIRED competition conducted by Flipkart and held on August 2021 by D2C	2021
Extra-Curricular	Accomplished 2 nd rank in 'Creative Writing' competition in annual college festival-Resonance in March	2015
	Accomplished 2 nd rank in 'Treasure Hunt' competition in annual college festival held in March, 2017	2017
Social Initiatives	Surveyed a community area close to the CRY tie-up school to understand the problems of the people	2017
	Volunteered for Blood Donation Camp held at Terna Engineering College, Navi Mumbai in September	2016

Positions of Responsibility

Child Rights and You (CRY)	College Representative of Child Rights and You (CRY) - Spearheaded a team of volunteers in the college to teach at a CRY intervention school in Navi Mumbai - Organized Anti-Child Labor awareness drive with Mumbai Police to emphasize issues related to labor	2017
Terna Engineering College	Magazine Secretary, Student Council - Conducted the Magazine Committee events such as Creative Writing, Extempore, etc. during Resonance - Initiated Wall Magazine in TEC which displayed the articles and sketches made by the college students	2017
