CAREER OBJECTIVE

Self-motivated, highly passionate, and ambitious fresher looking for an opportunity to improve my skills and knowledge and enhance my experience through continuous learning and teamwork.

EDUCATION

ANDHRA PRADESH STATE SKILL DEVELOPMENT CORPORATION May –Nov 2023

Industry ready certification in Automotive product design using CATIA V5

- Good knowledge in CATIA V5 (Sketcher, Part Design, Drafting, Assembly, Generative Shape Design, Generative Sheet Metal, DMU Analysis).
- **Remastering:** converting non-parametric models, assemblies to parametric.
- **Solid Body Creation (A to B):** Generation of B surface from Styling surface, Master sections and environment data. (Car Bumpers, Door Trims, Head lamp, Headliner, Parcel Shelf)
- **Designing the features** like Locator, Snaps, Dog House, Strengthening and Supporting Ribs, Clip tower, Bosses and Gussets using Powercopy method.

Vignan's Lara Institute Of Technology & Science, Guntur

2019 - 2023

B.Tech (Bachelor of Technology)_Mechanical Engineering (ME) (7.85CGPA)

Narayana Junior College, Vijayawada

2016 - 2018

Intermediate_ MPC (94.6%)

2015 - 2016

Narayana E-Techno school, Gudivada

Secondary School of Certificate (9.2 CGPA)

SKILLS

1. Basic knowledge on DFM, DFA related to plastics.
2. Proficient in CATIA software
3. Creo parametric
4. AutoCAD
5. Microsoft Office

ACADEMIC PROJECTS

- **Project Name:** Simulation and Investigation of chip morphology and surface quality during high-speed machining of A356/SiC+ZrO2 composites

Role: Team lead

Team Size: 4

Project Detail:

To process A356/SiC/ZrO2 hybrid composites from A356 matrix and SiC/ ZrO2 as reinforcement using stir casting method. To investigate surface quality and chip morphology of A356/SiC/ZrO2 hybrid composites during high speed machining under dry conditions.

- **Project Name:** Investigation the properties of AZ91E

Role: Team member

Team Size: 6

Project Detail:

Testing the new material properties like mechanical, thermal, hardness in the both practical and simulation. The testing of the material bases on the tensile, compression, bending and thermal testing.

PROJECTS DONE BY USING CATIA V5

1. Door Trim [Arm Rest, Map Pocket, Upper and Lower Trim]

- This Project involves Design and Development of Car Door.
- Worked on various parts of a door with A to B Process which basically used for designing B Surface, C Surface, whereas A Surface will be the Input Surface i.e.; Class A Surface.
- Developing the Trim as per Design Considerations and designing as per Tooling and Interface Requirements.
- The errors will be sent to the A Surface styler through PowerPoint presentation. After clearing all the errors in A Surface, B Surface formation will be developed.
- After A & B Surfaces, Closing Surface (C Surface) will be developed.
- Once the Final Surface is ready, Solid body will be developed.

2. Pillars [A-pillar, B-pillar, C-pillar]

- This Project Involves Design and Development of A & B Pillar.
- This includes Checking and studying the inputs.
- Developing the Trim as per Design Considerations.
- Designing as per Tooling and Interface Requirements.
- Creating Engineering Features by using Power copy and Checking with Interface Data.
- Performing Draft Analysis for the entire Body to check Manufacturing Feasibility.

3. RE-MASTERING

- Remastering of various BIW Components and Plastic Components and development of a fully parametric model to facilitate design changes.
- It includes the conversion of Nonparametric to parametric models. Re-mastered a fully parametric model from input.

CERTIFICATION COURSES

- Bagged a Internship certificate by APSSDC on CATIA V5 for INTERIOR TRIMS.
- By Verzeo private Ltd., achieved a certification on car design using Automotive Alias by Autodesk.
- By SNTS Global Private Ltd., provided AEP certified certificate for drafting of the reboiler and generators using CATIA and AutoCAD.
- Cambridge University English Course (PET, Preliminary English Test) Bagged an English certification course conducted by Cambridge University on the bases of learning, writing and speaking.
- Achieved an NPTEL Certificate on Nature and properties of material.
- I have successfully completed AutoCAD certification course organized by APSSDC.

EXTRA CURRICULAR ACTIVITIES

1. Organizer in VLITS club carnival 2022 as club coordinator.
2. Club coordinator in YANTRIK club for Mechanical engineers.
3. Team leader in automotive product design course.
