

Yashodhara

+91-8861685962~ yashubangera150293@gmail.com

Seasoned Senior Software Engineer with over 3.5 years of expertise in Java and Test Automation Framework Development and proficiency in a range of testing tools, including Selenium, Cucumber, JUnit, and Jenkins and extensive industry experience.

CORE COMPETENCIES

- ☐ Software Quality Assurance
- ☐ Test Automation
- ☐ Functional Testing
- ☐ Regression Testing
- ☐ Continuous Integration and Deployment (CI/CD)
- ☐ Agile Methodology
- ☐ Test Framework Development
- ☐ Collaboration and Teamwork

PERSONALITY TRAITS

- ☐ Interpersonal
- ☐ Communication
- ☐ Relationship Builder
- ☐ Sharp Problem Solver
- ☐ Energetic Work Attitude

EDUCATION

- ☐ 2018: Bachelor of Science (Statistics) from Mangalore University, Karnataka

TECHNICAL SKILLS

- ☐ Languages: Java
- ☐ Tools: Selenium, Cucumber, TestNG, Gherkin, Jenkins, Postman, Eclipse, Git

HIGHLIGHTS

- ☐ Employed manual and automated testing techniques to uphold software quality standards, guaranteeing bug-free products and seamless user experiences.

PROFILE SUMMARY

- ☐ Proficiency in designing and implementing robust Test Automation Frameworks, utilizing tools such as Selenium, Cucumber, JUnit, TestNG
- ☐ Proven track record in ensuring software quality through comprehensive testing methodologies, resulting in the delivery of high-performance, bug-free applications.
- ☐ Extensive experience in continuous integration and deployment using Jenkins, streamlining the development process and enhancing team productivity.
- ☐ Solid foundation in Java programming and expertise in leveraging Data Structures for efficient algorithm development and problem-solving.

CORPORATE SUCCESS

Jun 2020 – Nov 2022: Pride Technology

Jun 2020 – Nov 2022 | Software Test Engineer

- ☐ Successfully executed comprehensive manual test plans for the projects resulting in a 20% reduction in post-release defects.
- ☐ Played a key role in identifying and documenting critical defects during the testing phase, contributing to a 15% improvement in overall software quality.
- ☐ Implemented efficient testing processes and methodologies, leading to a 30% reduction in testing cycle time without compromising quality.
- ☐ Proficient in designing, implementing, and executing manual test cases for web applications, mobile apps.
- ☐ Expertise in defect tracking and reporting using tools such as Jira.
- ☐ Collaborated with cross-functional teams, including developers and product managers, to ensure clear communication and understanding of testing requirements.
- ☐ Conducted thorough testing of functional, regression, integration to ensure the delivery of high-quality software.
- ☐ Collaborated with the development team to understand requirements and provide early feedback on potential issues.

Dec 2022 – Present: Neel-Tech international

Dec 2022 – Present | Software Test Engineer

- ☐ Spearheaded the implementation of an end-to-end automation framework using Java, Cucumber, and TestNG, resulting in a 25% reduction in test execution time.
- ☐ Successfully automated critical test scenarios, improving test coverage by 30% and ensuring robust validation of application functionalities.
- ☐ Introduced the Page Object Model (POM) design pattern to enhance test maintainability and reduce script redundancy, leading to a 20% decrease in script maintenance efforts.
- ☐ Proficient in developing and maintaining automated test scripts using Java, Cucumber, and TestNG.
- ☐ Implemented Page Object Model (POM) for scalable and maintainable test automation.
- ☐ Collaborated with cross-functional teams to integrate automated testing into the continuous integration/continuous deployment (CI/CD) pipeline.
- ☐ Developed and executed automated test scripts for web application to ensure product quality.
- ☐ Collaborated with developers to analyze requirements and provide early feedback on potential automation opportunities.
- ☐ Conducted regular code reviews to ensure adherence to coding standards and best practices in the automation scripts.
- ☐ Received accolades for significantly improving test efficiency and contributing to the overall quality of software releases.
- ☐ Collaborated with the testing community on GitHub through code reviews, issue discussions, and pull requests.
