### SUMMARY

- Overall industrial experience of 3.2+ years in IT industry including technical proficiency in big data environment with extensive expertise in development on Hadoop ecosystem.
- Hands on experience with Big Data core components and Eco System including Data Ingestion and Data Processing (PySpark, Snowflake, Hive, SQOOP, HDFS, Power BI)
- High level knowledge of Snowflake and Power BI.
- Have experience writing data extraction logic in SQL.
- Capable of processing large sets of structured data.
- Perform tasks such as writing SQL and HQL queries.
- Having experience on Spark SQL, include integration of the Spark with applications.
- Experience in transferring data from RDBMS to HDFS and Hive tables using Sqoop.
- Experience in creating tables, partitioning, bucketing, and loading in Hive.
- Experience in creating tasks and scheduling workflows on Informatica Environment.
- Experience in Deploying the Scripts and Informatica task in Production environment using Git.
- Resolve JIRA tickets raised by Client.
- Analytical mind and ability to learn concepts.
- Very Good understanding of Partitioning, bucketing concepts in Hive and designed both Internal and External tables in Hive to optimize performance.
- Strong problem solving & technical skills coupled with clear decision-making.

# DATA ENGINEER

## Education:

- Bachelor of Engineering in Production Engineering at Amrutvahini College of Engineering, Sangamner. (S.P.P.U)
- H.S.C & S.S.C from Maharashtra State Board

## Technical Skills:

|                            |                                          |
|----------------------------|------------------------------------------|
| <b>Hadoop Platform</b>     | MapReduce, Hive, Sqoop, Spark, Spark SQL |
| <b>Programming</b>         | Python, SQL, Shell scripting             |
| <b>AWS Hadoop Services</b> | EC2, S3, EMR, RDS                        |
| <b>Operating Systems</b>   | Linux (Ubuntu), Windows 7/8/10           |
| <b>Cloud Database</b>      | Snowflake                                |
| <b>Visualisation Tool</b>  | Power BI, Celonis                        |

## PROFESSIONAL EXPERIENCE:

**Organization: Enquero Global LLP (Genpact)**

**Project Name: Partner Migration**

**Role: Data Engineer**

**June 2022 – Present**

**Client: VMware**

---

## Description:

VMware Partner Migration was responsible for migrating the data from multiple resource to Hive and analyse the data of different business owned and the services provided by VMware. Basically, it was Re-Platforming of data from various sources like Oracle, MySQL, and Flat-files etc. to Hive.

## Responsibilities:

- Task checking on sprint board.
- Developed SQL logics to extract data from source.

## DATA ENGINEER

- Writing DDL for Hive.
- Developed SQL and HQL scripts for transformation and load that into Hive.
- Worked on ingesting data from various sources using Marlin UI.
- Worked on creating and scheduling Informatica tasks and workflows.
- Deploy job into Production environment.
- Worked on validating the data in Hive.
- Engage with team to understand the requirements clearly.

**Environment:** Hive, SQL, Spark SQL, Git, Informatica, Marlin-UI, JIRA.

**Organization: Simandhar Technologies Private Limited**

**Project Name: Insurance Data Warehouse**

**Role: Data Engineer**

**Jan 2021 – June 2022**

**Client: Munich RE**

---

### **Description:**

Insurance Data Warehouse responsible to analyse insurance data. It's RDBMS to Snowflake data migration project using Apache Spark. Analysis is crucial to ensure accuracy of claims for all policy holders.

### **Responsibilities:**

- Task checking on sprint board.
- Developed PySpark programs to extract data from Oracle DB to CSV.
- Writing DDL for Snowflake.
- Developed PySpark programs for transformation and load that into Snowflake.
- Deploy job into UAT environment.
- Involved in working on Spark SQL Code as an alternative approach for faster data Processing and better Performance.
- Worked on QA support activities, test data creation and Unit testing activities.
- Engage with BA to understand the requirements clearly.

**Environment:** Oracle, PySpark, GitHub, AWS S3, AWS EMR, PyCharm, JIRA.

**Details:**

Name : Yogesh Sahdev Gadhe  
Gender : Male  
Date of Birth : 18-March-1997  
Nationality : Indian

**Declaration:**

I hereby declare that the information furnished above is true to the best of my knowledge.

Date:     /     / 2022
