OBJECTIVE

To obtain a challenging and responsible position in the area of Software Testing where my knowledge, ability and dedication will be utilized.

SUMMARY

Recent **BCA** graduate with a strong academic background and a passion for **IT industry**. A quick learner with a desire to contribute to a dynamic team through **Automation Testing (Selenium, Testng) and Manual Testing**. I'm also good at problem-solving, creativity, and adaptability. Eager to apply theoretical and practical knowledge gained in **Qspiders Institute** and hands-on projects to real-world challenges.

- Good Knowledge on Software Development Life Cycle and Software Test Life Cycle.
- Knowledge on Various SDLC Models, Test Levels, Test Types and Test Design Techniques.
- Knowledge on All phases of Software Test Process includes Test Planning, Test Design, Test Execution.
- Knowledge on Generating Test Scenarios, Write Test Cases, and Collect Test Data.
- Knowledge on Defect Reporting, Defect Tracking and complete Defect Life cycle.
- Expertise on Programming Fundamentals, and Database Fundamentals.
- Familiar with Java Programming and VBScript
- Proficient in taking the Webpage and WebElement Screenshot.
- Fully Aware of basic annotations of testNg Tool.
- Proficient in using implicit and explicit wait appropriately.
- Knowledge on Action Class.
- Aware of Automation and Java Coding Standards.
- Fully aware of understanding the manual testcase into automation script.

EDUCATIONAL QUALIFICATION

BCA	Al -Ameen Institute of Information Sciences Bangalore University	2022	70%
Diploma(Computer Science)	BES Institute of polytechnic	2019	65%
SSLC	Lilly Rose English High School	2015	71%

COURSE

Software Development Engineer In Test (SDET)

Qspiders Institute

PROJECT

FIREFLINK CROWD BETA TESTING ROLE

During my participation in the FireFlink Crowd Beta Testing project, I undertook a comprehensive testing initiative across multiple applications of significant importance. This endeavor involved evaluating and ensuring the reliability functionality, and user experience of various applications.

Team Size: 9 Responsibilities

- 1) Testing Features:** Actively using the software to test all available features and functions.
- 2) Bug Reporting:** Identifying and documenting any bugs, glitches, or errors encountered during testing.
- 3) Feedback Submission:** Providing detailed feedback on the user experience, including what works well and what needs improvement.
- 4) Usability Testing:** Assessing the overall ease of use and the clarity of user interfaces.
- 5) Compatibility Testing:** Ensuring that the software works correctly on different devices and operating systems.
- 6) Performance Testing:** Evaluating the speed and responsiveness of the software.
- 7) Security Testing:** Assessing the software's security measures and reporting any vulnerabilities.
- 8) Adhering to Test Plans:** If provided, following specific test plans or scenarios outlined by the testing team.
- 9) Communication:** Maintaining open communication with the beta testing team to share findings, ask questions, and receive updates.

EDUSTOKE

Description: - Edustoke is an enquiry website which helps you to find schools nearby your location and to apply online admission in nursery school, high schools, primary school, CBSE schools, online schools with complete details such as address, timing, board, fees etc.

Role – Tester (Prepared Test plan document in Microsoft Word and Test scenario document, Test case document, Defect report document with Excel sheet).

STRENGTHS

- Expert Knowledge in Oral & Written communication
- Good Listener focused on speakers.
- Organized & detailed oriented.
- Strong skills in time management, prioritizing tasks & meeting deadlines

SKILLS

Manual testing

- Good Knowledge in SDLC and STLC, understanding software development and testing life cycle.
- Skilled at writing test Scenarios, converting them into test cases and executing effectively.
- Extensive knowledge in Black Box Testing, Functionality, Integration, and System Testing.
- Familiar with Defect Life Cycle, Test Plan, Test Case creation, Traceability Matrix, and Agile Methodologies.

Selenium

- Strong grasp of Selenium WebDriver architecture and Java integration.
- Pro client in diverse locators and crafting precise XPath's for object identification
- Skilled in managing multiple elements and resolving synchronization challenges with Implicit and Explicit waits.
- Knowledge of handling dropdown lists & various pop-up types.

Java

- Familiar with Decision Making, Looping, Type Casting, Construction Chaining.
- Knowledge of OOPS: - Abstraction, Encapsulation, Polymorphism, Inheritance.

TestNg

- Good Knowledge on annotations
- Framework

Sql

- Basic Knowledge on SQL.

INTERESTS

Cricket | Swimming | Travelling
