Haryana, India

Summary

I am a dedicated student pursuing a B.Tech in Computer Science and Engineering, Self-motivated and highly reliable human positioned to contribute strongly to organizations demanding tact, enthusiasm, and an exemplary work ethic. Outstanding time-management and organisational abilities, willingly working unpredictable hours/overtime to ensure organisational efficiency and profitability. I possess advanced expertise in both C++ programming and C languages, developed through extensive practical experience and theoretical knowledge. With a passion for technology and a desire to innovate.

Education

SRM Institute Of Science And Technology B.Tech · Computer Science And Engineering · Modinagar, Uttar Pradesh	Aug 2021 - Present 9.25
White Leaf Public School 12th · CBSE · Delhi, India	Apr 2020 - Mar 2021 79.8%
OP Jindal Morden School 10th · CBSE · Hisar, Haryana	Apr 2018 - Mar 2019 89.6%

Projects

Weather Fetching Website Link · HTML, CSS, JavaScript	- Web Development
A weather fetching website developed using HTML, CSS, and JavaScript provides real-time weather updates and forecasts. The site features a user-friendly interface, displaying current conditions, weekly forecasts.	
Currency Converter Link · HTML, CSS, JavaScript	- Web Development
A currency converter project developed using HTML, CSS, and JavaScript allows users to quickly and easily convert between different currencies in real-time. The user-friendly interface and interactive design provide a seamless experience for accurate currency conversions.	
Stone-Paper-Scissor Game Link · HTML, CSS, JavaScript	- Web Development
A Stone-Paper-Scissors project developed using HTML, CSS, and JavaScript features an interactive web-based game where users can play the classic hand game against the computer. The application showcases dynamic styling and responsive design, providing an engaging user experience.	
Tic-Tac-Toe Link · HTML, CSS, JavaScript	- Web Development
A Tic-Tac-Toe project created using HTML, CSS, and JavaScript offers an interactive and visually appealing game interface. It allows two players to take turns marking Xs and Os on a 3x3 grid, with functionality to detect and announce the winner or declare a draw.	

Certifications

Database Management System Link NPTEL (Coordinator of NPTEL IIT Kharagpur) · NPTEL24CS21S545400002	Apr 2024 -
Successfully completed a 8-week NPTEL course on Database Management System, gaining proficiency in database design principles, SQL query optimisation, and normalisation techniques. Completed practical exercises and assignments to reinforce learning and developed a solid foundation in managing databases effectively.	

Data Science | [Link](#)

Oct 2023 -

NPTEL (Coordinator of NPTEL IIT Madras) · NPTEL23CS97S44401920

Successfully completed the NPTEL Data Science course, demonstrating proficiency in various data science concepts, including data analysis, machine learning, and statistical modelling. Obtained certification by passing the comprehensive examination, validating knowledge and skills in working with diverse datasets and extracting actionable insights. Demonstrated ability to apply data science techniques to solve real-world problems, showcasing analytical and problem-solving skills.

Certification of Completion of 7 days bootcamp with Devtown | [Link](#)

-

Devtown

Successfully completed a project to replicate the functionality and user interface of Google Drive using HTML for structure and Material CSS for styling, gaining valuable hands-on experience in web development and frontend technologies.

Virtual Lab participation Certification | [Link](#)

Nov 2022 -

Team Virtual Labs (IIT Roorkee)

The Virtual Lab team at IIT Roorkee recently conducted an engaging workshop focused on enhancing practical learning through online simulations and interactive experiments, enabling students to gain hands-on experience in a virtual environment. This initiative aims to bridge the gap between theoretical knowledge and practical application in various scientific and engineering disciplines.

Competitions

Code Clash 3.0 | [Link](#)

Jan 2024

Participation · Tech Challenge

Participated in the prestigious CodeClash coding competition, competing against top talents in algorithmic problem-solving and software development. Demonstrated proficiency in coding languages and problem-solving techniques through rigorous challenges and time-bound tasks. Collaborated effectively with team members to strategise, develop solutions, and optimise performance in competitive programming scenarios.

Skills

C, C++, Python, Java, DBMS, SQL, ReactJS, HTML, CSS, JavaScript, Web Development, Data Structures And Algorithms, Operating System, Data Science, Computer Networks, Compiler Design

Languages

English [Professional Working Proficiency], Hindi [Professional Working Proficiency], French [Elementary Proficiency]

Extra Curricular Activities

Guitar Player

-

Football Zonals

-

Participating in the zonal football tournament, representing north zone CBSE school competition

Cricket Zonals

-

Participating in the zonal of cricket, representing OPJMS CBSE school
