<https://www.linkedin.com/in/achint-raj-anand-958a40193>

Dynamic RPA Developer with a focus on automation solutions, seeking opportunities in the fields of process optimization and AI integration within the technology sector, preferably in the Delhi NCR and Hyderabad.

Education

- 2021: Bachelor of Technology (Electronics and Communication), Meerut Institute of Engineering and Technology, Affiliated to AKTU,

Core Competencies

RPA Development & Automation

Business Process Automation

AI Integration in Automation

Project Management

Resource Optimization

Client & Stakeholder Management

Training and Development

Agile Methodologies & DevOps

Process Optimization

Cross-functional Collaboration

Technical Skills

Document Understanding, AI Center, SAP Automation, OCR, PowerPoint Automation, Web Scraping, Orchestrator, and RE Framework
VB Script and Google App Script
Azure Cloud
ServiceNow

Achievements

- Technical Excellence Award
- On-the-Spot Awards (5 times)
- Client Appreciation Awards (4 times)

Personal Details

Date of Birth: 17/11/1999

Address: Noida, India

Languages: English, Hindi & Punjabi

Profile Summary

- Accumulated comprehensive experience in the domain of Robotic Process Automation (RPA), specializing in the development and deployment of automation solutions within the technology and consulting industries.
- Recently concluded a role as a System Engineer at Tata Consultancy Services, where responsibilities included the design and implementation of automation processes that significantly enhanced operational efficiency.
- Developed a comprehensive skill set encompassing advanced automation techniques, process optimization, and AI integration, with a strong emphasis on delivering high-quality solutions that meet client specifications.
- Achieved a notable reduction in project delivery timelines by 30%, demonstrating a commitment to excellence and client satisfaction through effective resource management and innovative problem-solving.
- Possessed in-depth knowledge of various automation tools and frameworks, including UiPath, which facilitates the creation of robust and scalable automation solutions tailored to diverse business needs.

Work Experience

System Engineer - RPA Developer

Tata Consultancy Services October 2021 – December 2024

Key Result Areas:

- Developed and deployed 13 unattended bots (5 GxP, 8 Non-GxP) within the Life Science Consumer Health domain, reducing delivery time by 30% while exceeding client expectations.
- Optimized the performance of 11+ bots through advanced techniques, improving efficiency and reliability.
- Created reusable components using UiPath Libraries, Object Repository, and modern design practices for scalable automation solutions.
- Led process automation initiatives for MS Excel, SAP, email systems, PDFs, OCR, web scraping, and document understanding.
- Integrated AI and decision-making using UiPath AI Center, Action Center, RE Framework, and State Machines.
- Collaborated with clients from the USA, Germany, France, Mexico, and China to deliver tailored automation solutions.
- Configured Orchestrator modules such as Assets, Queues, Triggers, Machines, and Roles to ensure smooth bot operation.
- Applied Agile methodologies throughout project lifecycles to support iterative development and timely delivery.

RPA Training and Support Coordinator - Citizen Developer Program

Tata Consultancy Services | April 2022 – December 2024

Key Result Areas:

- Trained 100+ associates on UiPath StudioX, providing structured learning sessions and personalized one-on-one code reviews.
- Conducted code architecture and error resolution workshops to promote best practices and enhance automation quality.

Certifications

- UiPath Certified RPA Developer (UiARD | UiADP) - UiPath
- Robotics Process Automation Certificate - Pro5.ai
- AZ-104: Microsoft Azure Fundamentals - Microsoft
- Google App Script - Udemy.
