SUMMARY

Cloud solutions developer with extensive experience in Microsoft Azure and Microsoft Fabric, showcasing resources like Azure Synapse, ADLS Gen2, Microsoft Purview, Data Engineering, Data Warehouse, and Real-Time Intelligence etc. Proficient in automating Azure and Fabric environments using ARM templates, PowerShell, Azure CLI, and the latest APIs. Developed Azure solutions with real-time Power BI updates and automated their end-to-end deployment processes utilizing Infrastructure as Code (IaC) methodologies along with markdown-based documentation. Skilled in documenting build and release processes and maintaining source code in GitHub repositories.

EDUCATION

Bachelor of Technology, Orissa Engineering College
Specialization: Computer Science Engineering

2016 - 2020

SKILLS

Technical Skills	Microsoft Azure, PowerShell, Azure Automation, Microsoft Fabric, Purview, and Power BI
Technical Tools	Storage Explorer, SQL Server Management Studio and DocumentDB Data Migration Tool
Familiar Skills	MSSQL, JSON, Markdown and Word Documentation
Tools	GitHub, Azure DevOps, VS Code, AI tools

EXPERIENCE

Senior Software Engineer
Xoriant Solutions

Nov 2020 - Present
Pune, India

- Delivered industry scenario DREAM Demos and POC Accelerators for Microsoft implementing Azure and Fabric resources and automated their end-to-end deployment.
- Managed development team to create On-Demand Labs for conferences like Ignite, Build, FabCon, etc.
- Enabled global Microsoft Sellers and Partners by assessing business needs and translating them into targeted and personalized field programs.

PROJECTS

Microsoft Fabric Dream Demo.

Worked on Microsoft Fabric to showcase Fabric functionalities like Lakehouse, Data Pipelines, Dataflow Gen2, Shortcuts, Data Warehouse, Mirrored Databases, Real-time Intelligence, Semantic models, Copilot, etc.

Automated the setup of Fabric environment with latest available APIs implementation with Powershell script.

Migration of Synapse Analytics solutions to Microsoft Fabric based solutions using data from Storage Account, SQL Pool, Azure SQL Server, etc.

Good familiarity with Azure DevOps services like Boards, Repos, Sprints, Backlogs, etc.

Retail / Manufacturing/ Finance Services/ Healthcare

Developed Azure solutions through Azure Marketplace Packaging with live data updation from PowerBI reports.

Created Powershell Scripts and ARM templates to automate the provisioning and deployment process converting existing workloads from manual to ARM-based automated Azure Cloud Environment.

Implemented features like Synapse Analytics, Microsoft Azure Storage Explorer, SQL Server Management Studio, and Azure DocumentDB Data Migration Tool introduced by Microsoft.

Experience with Azure cloud services like Synapse, App Service, Storage Account, Function App, Event Hub, Cosmos DB, SQL Server DB, Stream Analytics Job etc.

Developed Infrastructure as code (IaC) using DevOps methodology and continuous delivery to deliver applications and their supporting infrastructure rapidly and reliably at scale.

Documentation in Mark Down and Word format for setup of the Build and Release process.

Extensively worked on GIT to maintain source code in Git and GitHub repositories.

CERTIFICATIONS

- Microsoft Certified: Fabric Analytics Engineer Associate DP-600
- Microsoft Azure Fundamentals AZ-900
- Microsoft Data Fundamentals DP-900

ACHIEVEMENTS

- Xor Learner Award.
- Star Performer Award (2 times).
- Spot Award Certificate.
