PROFILE SUMMARY

- Software Professional having more than 19 years of experience in software development.
- Hands-on technical experience in developing, managing and supporting software applications and infrastructure.
- Proven leadership experience in leading, managing & mentoring team members.
- Well-versed with C, C++, MFC, Managed C++, Libraries, Database Technologies, Mobile programming.
- Extensive experience in Multi-threaded, Socket, Network, Device Drivers, Database-oriented applications, System Integration and all aspects of Object-oriented design.
- Experience in working with various data structures and algorithms.
- Solid troubleshooting, debugging and problem-solving skills with Windows & UNIX.
- Working experience on protocols like IEC 61850, IEC 60870-5-101/103/104, DNP3, SNMP, SFTP, SMTP, Modbus, OPC, MQTT, CoAP, CAN.
- Have used Waterfall, SCRUM and Agile methodologies to deliver projects on time.
- Excellent communication skills and a good team player.
- Can-do attitude and willingness to accept challenging projects and learn.

TECHNICAL LITERACY

Languages	C, C++ 11/14/17, STL, VC++ (MFC & Win32 API), Data Structures, Algorithm, Design Patterns, Basic Python and C#
3rd Party	Boost Lib, gtest
Database	SQL Server, MySQL, SQLite
Tools	JIRA, Rally, Mantis, SVN, Git, Visual Studio, Qt Creator, Jenkins, InstallShield, Collaborator, Compass, Coverity, Valgrind
Domain	Healthcare, Power, Mobile, Telecom, Banking & Finance (BFS)
OS	Windows, Linux

PROFESSIONAL EXPERIENCE

Tata Elxsi Ltd., Bengaluru, Karnataka

Aug 22 – Present

Senior Specialist

- Working as Tech Lead and Senior C++ Developer for client GE Healthcare in Anesthesia and Respiratory Care Project.
- Actively involved in the implementation and enhancement of platform requirements using C++ technologies with unit tests.
- Understand the SSRS and SWDS. Implement the back-end modules.
- Managed and utilized SQLite database for efficient data storage and retrieval.
- Coordinated with various development teams to ensure seamless integration with the platform and alignment with project goals.
- Maintained and tracked story points for all team members to ensure accurate sprint planning and delivery.
- Provided technical guidance and mentorship to junior developers.

BNF Technology Inc., Gandhinagar, Gujarat

Feb 12 – Jun 22

Team Leader, Senior Software Developer

- Worked on C, C++, managed C++, C#, MySQL, MariaDB, SQLite and various device driver protocols on Windows and Linux platforms.
- Effectively managed a team of 5-6 developers, improving project delivery times and overall team productivity.
- Coordinated project tasks, ensuring timely delivery and adherence to project specifications.
- Worked on file-based Data Historian to store and retrieve data quickly and efficiently.
- Successfully led the development of Gateway and DataManager applications, collecting data from the interface layer and sending it to the historian.
- Developing various applications for fail-over management, synchronization of data, and connection management.

- Developed communication libraries in C++ and Managed C++.
- Implemented prediction applications using advanced algorithms to forecast data trends.
- Designed and developed engineering workstations (server and client modules) using various protocols (IEC, Modbus, DNP, OPC, MOXA IO, MQTT), improving interoperability and efficiency.
- Developed Python scripts to test various functionalities, also created various simulators in MFC.
- Identified ideas to improve system performance and impact availability.
- Also have onsite experience for Malaysia-based client Tenaga Nasional Berhad.

VCM Partners (I) Pvt Ltd, Gandhinagar, Gujarat

Nov 07 – Feb 12

Business Technical Manager, Senior Software Developer

- Developed and enhanced BFS domain products using C++, VC++, SQL & TheBeast framework.
- Development of financial software that helps in the electronic trading of OTC derivative products in VC++.
- Implemented database-stored procedures to retrieve trade attributes as data sets.
- Also worked as Business Technical Manager for BondMax Product, taking care of all stages of the Product by working with middle office people and a team of developers.
- Worked closely with the Business Analysis team to finalize and clarify mission-critical requirements.
- Worked with support team to resolve complex production and performance issues.

Gaytes Info System Pvt. Ltd., Ahmedabad, Gujarat

Dec 06 – Oct 07

Software Developer

- Developed and enhanced telecom domain voice applications using C++, MFC, and SQL Server.
- Develop client software in MFC that records all Incoming and Outgoing calls from Digital Lines using PIKA and Synway Technologies. Generate information related to calls for later analysis. I also added functionalities like On-Demand Recording.
- Added functionalities like Name Dialing, Group Dialing, SMS, and Email Notification to existing voice mail application.
- Developed many IVRS solutions like that for PF Inquiry, Railway 135, etc.
- Developed software for automatic dialing in MFC that checks for the request and automatically dialed the requested contact at the desired time. Also, pop up the message at the client end for the process.

Corsoft Corporation, Vadodara, Gujarat

Jul 05 – Nov 06

Software Developer

- Development and Implementation of Palm and VC++ applications.
- Developed client software that allows Delivery Boy to log in to the server, download customer records for deliveries, take approval from a client as a signature for delivered items and update the server.
- Developed client software, which includes Audio control, Lights Control, Playback control, etc.
- Design, implement and deploy Library for Palm Device Mail Client.
- Developed MFC Library using various messenger APIs like Skype, AIM, and MSN.

ACHIEVEMENTS & REWARDS

- Led with Lean mindset award by GE Healthcare for improvements in workflow, test duration and designed and developed to accommodate future improvements with ease.
- Awarded Employee of the Year 2021 for exceptional software designing, mentoring the team and providing support to all other teams.
- Awarded Employee of the Month Apr 2021 for increasing data retrieval performance by 90 %.

EDUCATIONAL QUALIFICATION

- 2005 BE Computer from Dharamsinh Desai University, Nadiad, Gujarat
- 2002 Diploma in Computer Engineering from Govt. Polytechnic, Ahmedabad, Gujarat
- 1999 12th in CBSE board from Novodaya Vidyalaya, Kheda, Gujarat
