Karthik Anchalkar

PROFILE

Dynamic Senior Project Manager with 20+ years of experience leading enterprise-scale, multi-region analytics, BI, and AI/ML initiatives in the insurance domain. Brings strong technical acumen across big data platforms, Databricks-based ETL, Power BI, and Azure/AWS cloud landscapes, enabling delivery of scalable, cloud-native analytics solutions. Proven in end-to-end delivery, strategic planning, and risk management, with a consistent track record of aligning technology execution with business outcomes through Agile delivery and strong stakeholder leadership.

EXPERIENCE

January 2018 - Current

Senior Project Manager Sapiens India Pvt Ltd

- Accountable for end-to-end planning, execution, and delivery of **DataSuite**, a pre-configured enterprise insurance analytics product spanning BI, AI/ML, GenAI, and Customer 360 use cases
- Led global delivery and client-specific customization across **US, UK, South Africa, APAC, and New Zealand**, ensuring regulatory, business, and regional alignment
- Directed cross-functional teams across data engineering, BI, AI/ML, GenAI, cloud, and platform integration to deliver scalable solutions built on **Power BI, Databricks ETL, and Azure/AWS**
- Oversaw development and productionization of insurance-specific AI/ML models including **Cross-Sell, Buying Propensity, Lapse Prediction, Customer Segmentation, and CLTV**
- Established strong delivery governance with ownership of project planning, milestone tracking, risk and dependency management, and proactive issue resolution
- Managed full product and R&D lifecycle including roadmap planning, feature prioritization, design, development, testing, releases, upgrades, and technology migrations
- Ensured adherence to enterprise data governance, security, and performance standards across all analytics deliveries
- Supported analytics solutions across **Life, P&C, and Reinsurance** domains, contributing to long-term product scalability and adoption

July 2015 - January 2018

Project Manager MSG Global

- Led delivery of BI analytics and testing initiatives, managing cross-functional teams to ensure high-quality execution
- Drove data integration, visualization, and reporting solutions to improve business decision-making
- Defined and executed testing strategies, including automation, to strengthen quality assurance and reduce delivery risk
- Partnered with stakeholders to refine analytics frameworks and align BI

ANALYTICS (LIFE, P&C,
REINSURANCE), SALES,
BANKING

outcomes with business goals

February 2015 - July 2015

Assistant Manager – IT AIG (American International Group)

- Established BI governance, best practices, and standardized infrastructure within AIG's Global Shared Services
- Managed enterprise visualization and reporting platforms (**IBM Cognos BI**) ensuring scalability and architectural alignment
- Led migration, optimization, and enhancement of enterprise BI assets supporting global analytics initiatives
- Partnered with global stakeholders to ensure data consistency, security, and compliance

July 2011 - January 2015

Technical Lead IBM

- Led design and delivery of Cognos BI dashboards and reports for Sales and Distribution analytics
- Architected reusable BI frameworks and enforced technical standards across projects
- Provided technical leadership, mentoring teams on Cognos, SQL, and data visualization

January 2006 - July 2011

Consultant Ibexi Solution India Pvt Ltd

- Delivered end-to-end DWH, ETL, and BI solutions for leading insurance clients across Life and General Insurance
- Built domain-specific data marts, ETL pipelines, and BI dashboards supporting underwriting, claims, and sales analytics

KEY ACHIEVEMENTS

- Transitioned delivery model from Waterfall to Agile, improving predictability and stakeholder transparency
- Standardized release and delivery governance across R&D organizations
- Established enterprise documentation standards using Confluence
- Designed and implemented role-based skill assessment and upskilling programs, strengthening internal capability and reducing external dependency
