CAREER VISION

Over 2 years of experience as a Intern in Android Developing using Kotlin.
Seeking position to utilize my skills and abilities in the information technology industry that offer professional growth while being resourceful, innovative and flexible.

WORK EXPERIENCE

Employer Name : Actoan Technology Private Limited.

Period : 2 Months.

Designation : Trainee.

Role : Android Developer.

Job Description : Developing Camera Live Streaming Application.

Employer Name : SmarDTV Global Technology Private Limited.

Period : 2 Years.

Designation : Intern.

Role : Android Developer.

Job Description : Developing Camera Live Streaming Application.

Employer Name : Raksha Software Solutions.

Designation : Junior Software Engineer.

Experience : 7 Months.

Job Description : Developing and Managing Hospital Management Projects.

PROJECTS

1. Camera Live Streaming Application (Android, Kotlin)

- Developed an Android application that streams live camera feeds using Kotlin with jetpack compose.
- Integrated **Nabto** for peer-to-peer video streaming, ensuring low latency and high-quality video transmission.
- Implemented user-friendly interfaces using **Jetpack Compose** for real-time video display.
- Worked with **Media3 player** and **Firebase** for seamless video playback and managing user authentication.
- Incorporated notification management and multi-device support, ensuring users could stream from multiple camera sources.
- Optimized network usage to handle various internet speeds, enhancing video quality and buffering for a smooth user experience across different conditions.

2. Hospital Management System (VB.Net, Microsoft SQL Server)

- Designed and developed a hospital management system using **VB.Net** for front-end and **Microsoft SQL Server** for back-end data handling.
- Implemented modules for patient registration, appointment scheduling, medical records management, and billing.
- Optimized database queries and stored procedures for efficient data retrieval and updates, ensuring real-time data availability.
- Developed reporting features for generating daily, monthly, and yearly hospital statistics for management and operational needs.

TECHNICAL SUMMARY

ANDROID STUDIO

- Developed Android application based on Kotlin concept such as Kotlin Flows, Coroutines, Retrofit, MVVM, Data-Binding.
- Designed and User Interface (UI) Components like – Guidelines, layouts, and Material3 UI Design, Jetpack Compose.
- Maintained comprehensive knowledge of Android Development life cycle and addressed challenges arising in each phase.

VB.Net

- Good evaluation skills to understand issues during software development as well as prioritization skills to complete projects on time.
- Possess good analytical and logical reasoning skills.

SQL

- Comfortable in writing SQL statements like DDL, DML, DQL etc.
- Good knowledge of Joins and Queries.
- Good understanding of RDBMS concepts.

TECHNICAL SKILLS

- Programming: Java, Kotlin.
- Web Technology: CSS, HTML.
- Tools/IDE: Android Studio, Visual Studio, MySQL.

EDUCATIONAL QUALIFICATION

- B.E- Completed B.E in Computer Science and Engineering Basaveshwar Engineering College (A), Bagalkot in 2021 with aggregate of 65.83%. And CGPA 7.27.
- Diploma in Computer Science and Engineering from Government Polytechnic College Bagalkot in 2018 with percentage of 62.48 % .
- 10th from Basaveshwar boys high school in 2015 with percentage of 64.16% KSEEB Board.
