## Key Skills:

|                     |                                                                                                              |
|---------------------|--------------------------------------------------------------------------------------------------------------|
| <b>Java, Oracle</b> | Core Java, Java Build Tools, Web Technology, Java Web Frameworks, Application Containers, Java EE Component. |
| <b>Development</b>  | SQL, PLSQL, JavaScript, Core Java, MySQL                                                                     |
| <b>Tools and OS</b> | Windows, Eclipse, PL-SQL developer, Apache & Tomcat, XAMPP, Linux Server                                     |

## Profile Summary:

- Experienced software engineer, with more than 2.3 years of experience in PLSQL, java Development and software Engineering in the Cloud Infrastructure Services domain of Future Staffing Solution Pvt. Ltd.
- Experience in designing and creating a complete UL for Java.
- Strong Experience on java EE technologies such as servlet, JDBC, JSP.
- Good programming skills in designing and implementing of multi-tier application using web-based technological like spring MVC and spring boot.
- Extensive knowledge on java SE Including exception, collection, threading and core java.
- Proficient in writing SQL queries, Cursor, Sub programs like Procedures, Functions, and Packages in PL/SQL.
- Written complex SQL (Sub queries and Join conditions), in PL/SQL.
- Knowledge in performance tuning and knowledge to work according to the Work Request and Change Request.
- Knowledge in performance JavaScript and knowledge to work according to the work Request JavaScript connectivity.
- Proficient at designing dynamic web application using HTML5, CSS 3, JavaScript Ability to understand the business requirements and Data models.
- SQL Programming Using Analytical functions, Sub Queries, indexes, Set Operator, join, view and SQL statements.
- Responsible and committed software Engineer, with an approach to automate and get things done on time. Quick learner and can easily adapt to a new environment.
- Proven success in operational excellence and Mentoring with a keen understanding of elements of developer.
- Got rewarded for success in planning, designing, developing & deploying solutions.

- A strong optimist with excellent problem-solving ability, Analytical skills and Quick learning ability.
- Good interpersonal skills, ability to interact with individuals at all levels.
- Clear understanding of debugging tools like Tracer, clipboard and Live UI.
- Excellent analytical, communication and Problem-solving skills.
- I have been involved in all phases of Software Development Life Cycle (SDLC), including Requirement, gathering, Requirement Analysis, Development, Application Testing, Delivery and Functional Studies.

## Professional Experience:

### 1. Future Staffing Solution – (August 2023 – April 2024)

|                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| <b>Environment</b>                | Angular 4/5, HTML, CSS, Bootstrap, JavaScript, JQuery, spring boot.                                                                                                                                                                                                                                                                                                                                                         |
| <b>Roles and Responsibilities</b> | <p>Designed and developed UI screens.</p> <p>Worked Extensively with Angular CLI for creating Components,Services, pipes, Directives.</p> <p>Worked on some of the new features of Angular 4.</p> <p>Involved in various phase SDLC, including requirement gathering,modeling, analysis, architecture design, prototyping, developing.</p> <p>Working with threads, multithreading, synchronization and Collection API.</p> |

## Qualification:

| Sr. No. | Details                                             | Marks     |
|---------|-----------------------------------------------------|-----------|
| 1.      | B.E (G.H. Rasoni College of Engineering) (ETC) 2019 | 7.59 CGPA |
| 2.      | Diploma (ETC) 2016                                  | 72.15%    |
| 3.      | HSC - Nagpur 2014                                   | 72.82%    |
| 4.      | SSC - Nagpur 2012                                   | 63.27%    |

## Technical Skills:

- Proficient with **C, C++**
- Good knowledge of **Core Java, Advanced Java, Servlet, JDBC, JSP.**
- Familiar with **Apache** and **Tomcat Servers.**
- Comfortable to adapt to other technologies similar like **HTML, CSS, HTML5**
- Familiar with **JQuery** and **JavaScript, Typescript**
- Familiar with **Angular4/5/6/7, react js.**
- Familiar with **Hibernate, spring, spring boot** and **Bootstrap** technology
- Good Knowledge of **SQL** and **PLSQL, SQL server.**
- Familiar with **Database management.**
- Good knowledge of **Pega** technology.

## Certifications:

- Full Stack Developer in Java Certification from Profound Edutech.(Feb 2020 – Sep 2020)
- Certified PRPC system Architect v8(CSA)
