Professional Synopsis

- •Having 12+ years of experience in L2/L3 protocol (Datacom) manual testing.
- •Worked in Commscope Inc as third party pay role.
- •Started worked in TCS(Third party pay role).
- •Started worked in Aricent Technologies(Holdings) from 01/02/2018.
- •Worked in HCL technologies as a Manual tester for L2/L3 protocols.
- •Worked in NEC technologies(Customer Location) in L2 protocol testing for wireless devices for the 2 years and 3 months representing Veryx technologies(formerly Net-O2 technologies)..
- •Worked 2 years and 6 months in L2/L3 protocol and System testing in overture, motorolla, ADVA in CLI, GUI and SNMP(SilverCreek) in Veryx technologies(formerly Net-O2 technologies).
- •Created test plans based on IEEE and open standards and client Software Requirement specification (SRS).
- •Automated testcases using TCL.
- •Trained newly joined freshers in SilverCreek, Spirent Test Center in both NEC and Veryx technologies.
- •Raised more valid issues by functional, conformance, stress, Load and negative check through manual testing and increased the quality of the device.
- •Keen learner with constant zest to learn about various upcoming technologies.

Companies

- Working in IPInfusion,Bangalore Duration : July 2022 - Present
- Worked in Terralogic,Bangalore. Duration: Dec 2021 – Jun 2022
- Worked in VVDNTechnologies,Pollachi. Duration : Feb 2021 - Oct 2021
- Worked in Aricent Technologies(Holdings) Ltd, Chennai.
Duration:Feb 2018 – Aug 2018
- Worked at HCL Technologies, Chennai. Duration :Sep 2015 – July 2017
- Worked at Veryx Technologies Pvt limited, Chennai. Duration :June 2015 – Aug 2015
- Worked at NEC Technologies (Customer Location), Chennai
Duration :Feb 2013 – May 2015
- Worked at Veryx Technologies Pvt limited, Chennai.
Duration :Nov 2010 – Jan 2013

Technical Forte

- Protocols known :VLAN,Provider-Bridge,STP,RSTP,MSTP,LAG,LACP,LINK-OAM,CFM,IPv4,Rip,Radius,RFC 2544,DHCP,SNMP.
- OS Used : Windows,Linux
- Tools used : Spirent Test Center,Wireshark,Putty,SilverCreek,PacketETH,WinSCP.
- Scripting Language: TCL
- System Features : LLF,Port Mirroring,Mac Learning and Aging.

Qualification

- **2009:B.E.(Electronics & Communication Engineering)** from M.Kumarasamy College of Engineering (under Anna University), Karur.
- **2005: 12th** from TNPL Matric & Hr.Sec. School, Karur.
- **2003: 10th** from TNPL Matric & Hr.Sec. School, Karur.

Veryx Projects

Title : **L2/L3 Protocol Tesing for Overture,Motorolla,ADVA.**
Period : Nov 2010 – Jan 2013.
Technology tested : L2/L3 protocols, Regression, System features.
Tools used : Spirent Test Center,IXIA,AgilentN2X,Silvercreek,Putty,PacketEth,Wireshark.
Responsibility : 1. Created test plans based on Open standards (IEEE,RFC) and Client specs .
2. Test bed formation in the lab.
3. Tested L2/L3 protocols (RSTP, VLAN, Link OAM, LACP, IPv4)
4. Also Tested system specific features in CLI, GUI and SNMP.

5. Bug Raising.
6. Bug verification and re-run the failed test cases..
7. Direct client communication on weekly status meeting.
8. Automated simple test cases using TCL.

NEC Projects

Title : L2 Protocol Tesing for wireless serious of devices like iPasolink 400, 400A.

Period : Feb 2013 – Oct 2014

Technology tested : L2 protocols, Manual, System Features.

Tools used : Spirent Test Center.

Responsibility : 1. Preparation of Testcase based on System Requirement Specification.

2. Performing testing for L2 protocols and System features in wireless environment.

3. Raising bugs and verification the bugs in fixed version.

4. Create topology based on the different customer issues.

5. Reproduce the issue faced by customer and verified the defect in fixed release.

6. Attend Weekly meeting with Japan Team.

NEC Projects

Title : Regression Testing for wireless serious of devices like iPasolink IX & EX.

Period : Nov 2014 – Aug 2015

Technology tested : L2 protocols, System Features.

Responsibility : 1. Testcase Execution.

2. Raising and Verifying bugs if found any.

3. Create topology based on the different customer issues.

4. Reproduce the issue faced by customer and verified the defect in integrated release.

5. Attend Weekly meeting with Japan Team.

HCL Projects

Title : Ericsson project

Period : Sep 2015 – March 2016

Technology tested : SICR setup Arrangement

Responsibility : 1. Need to setup a SICR environment for development team.

2. Worked with development team for any testbed issue.

3. Finding any new bug in the testbed.

HCL Projects

Title : **Brocade project**
Period : April 2016 – April 2017
Technology tested : L2/L3 Manual Testing, Tcl Automation.
Responsibility : 1. Worked on Tcl Automation using harmony framework
2. Worked on Manual testing to reproduce defects found by client.
3. Worked on Manual testing to finding new defects.

Aricent Project

Title : **ISS Manual Testing**
Period : Feb 2018 – Aug 2018
Technology tested : L2/L3 Manual Testing.
Responsibility : 1. Works as a manual tester for L2 protocols.
2. Works on to reproduce defects found by client.
3. Worked on Manual testing to finding new defects.

Tcs Project

Title : **Juniper Manual Testing**
Period : **May 2019** – Oct 2019
Technology tested : L2/L3 Manual Testing.
Responsibility : 1. Works as a manual tester for L2/L3 protocols.
2. Works on to reproduce defects found by client.
3. Worked on Manual testing to finding new defects.

Commscope Project

Title : **DSL Manual Testing**
Period : **Jan 2020**– July 2021
Technology tested : L2/L3 Manual Testing.
Responsibility : 1. Works as a manual tester for L2 protocols.
2. Works on to reproduce defects found by client.
3. Worked on Manual testing to finding new defects.
4. Test case preparation based on customer requirement.

Terralogic Project

Title : **Automation Testcase Run**
Period : **Dec 2021**– June 2022
Technology tested : L2 Testing.
Responsibility : 1. Ran Automated Testscripts for L2 features
2. Works on to reproduce defects found by client.
3. Test case preparation based on customer requirement.

IPInfusion Project

Title : **IXANVL Execution**

Period : **July 2022**– Present

Technology tested: L2 Testing

Responsibility : 1. Ran IXANVL Automated Testscripts for L2 features
2. Works on to reproduce defects found by client.
3. Test case preparation based on customer requirement

Hands on Platforms:

NEC Platforms : iPasolink IX, EX, 400, 400A, 1000

Other Vendors :

Overture, Motorola, ADVA, Ericsson, Brocade (NoS), ISS, Cisco (basic hands on), Arris NVG 448BQ General, NVG 556 Frontier.

Personal Details

Date of Birth : 2nd Oct 1986.

Languages Known : English, Tamil.

Marital Status : Single.

Nationality : Indian

Passport : **J3603336**

Declaration

I hereby declare that data furnished above is true to best of my knowledge.

Place: Bangalore
