

RAVI CHINNARI

SENIOR PROGRAM MANAGER

+91 9885248496

chrsankar@yahoo.com

Dynamic & results-driven Senior Program Manager with a robust focus on leading transformative technology projects across diverse sectors. Aiming to leverage extensive experience in strategic planning, team leadership, and project management to drive organizational success.

Core Competencies

Strategic Program Leadership
Cross-Functional Team Management
Agile & Waterfall Delivery Models
Technology Transformation & Modernization
Project Portfolio Governance
Stakeholder & C-Level Engagement
DevOps & CI/CD Implementation
Cloud Strategy (Azure | AWS)
Risk & Compliance Management
Enterprise Application Delivery
PMO Setup & Organizational Change Management
Process Optimization & Operational Efficiency

Education & Certifications

- M.Tech. in Chemical Engineering**
National Institute of Technology (NIT), Warangal, India | 2003
- B.Tech. in Chemical Engineering**
Jawaharlal Nehru Technological University (JNTU), Hyderabad | 2000

Certification:

- Project Management Professional (PMP)**
| Project Management Institute (PMI)

Tools & Technologies

- Project & Program Management Tools:** JIRA | Confluence | Zoho Projects | MS Project | Primavera | Clarity
- Programming Languages:** Python | C# | SQL
- Cloud Platforms:** Microsoft Azure | AWS
- Methodologies:** Agile | Waterfall
- DevOps & Automation:** CI/CD Pipelines | DevOps
- Domain-Specific Tools / Integrations:** SCADA Systems (Oil & Gas Applications Integration)

Profile Summary

Accomplished **Senior Program Manager** with **20+ years of established success** in leading **large-scale, high-impact technology programs** across fintech, healthcare, aviation, and enterprise domains.

Expert in **strategic planning, cross-functional team leadership** (100+ members), and **multimillion-dollar portfolio management**, consistently delivering projects **on time, within budget**, & exceeding business objectives.

Proven track record in driving **digital transformation**, implementing **Agile & Waterfall methodologies**, and spearheading adoption of **project management tools** such as **JIRA, Confluence**, and **Zoho**, increasing up to **40% delivery efficiency** and **25% boost in team productivity**.

Skilled in **risk management, conflict resolution**, and **stakeholder engagement** to minimize project disruptions by 30% and maximize value realization.

Technically proficient in **Cloud (Azure, AWS), Machine Learning, Python, C#, and SQL**, with deep expertise in **DevOps automation** and **CI/CD pipeline implementation**, achieving **100% automation** and significantly accelerating software deployment cycles.

Certified **Project Management Professional (PMP)** with a strong ability to align technology initiatives with strategic business goals. **Strategic visionary adept at optimizing resource allocation, driving revenue growth (+40%)**, and elevating client satisfaction through proactive issue resolution and comprehensive training programs.

Recognized for building **high-performance teams**, fostering collaboration, and delivering innovative solutions that translate into measurable business impact and sustained competitive advantage.

Notable Accomplishments | Highlights

- Successfully delivered over 15 Fintech projects**, including **3 - 4 concurrent** at KFin Technologies Ltd., consistently meeting all defined **Key Result Areas (KRAs)**.
- Led a team of 100+ developers, analysts, and project managers**, fostering a high-performance environment that **boosted team engagement and project success**.
- Implemented Agile methodologies at Xoot Access Technologies**, resulting in a **20% increase using JIRA in overall productivity and project throughput**.
- Introduced Zoho as a project management tool at KFin Technologies Ltd.**, and led **PMO and organizational training initiatives** for enhanced efficiency.
- At Xoot Access Technologies, **resolved over 10,000 outstanding issues within 24 months**, leading to **zero unresolved issues** and significantly improved stakeholder satisfaction.
- Achieved a **40% increase in delivery efficiency** and **30% improvement in quality** through optimized project methodologies at Xoot Access.
- At Veripark Software, **managed a \$15M project budget**, achieving **12% cost savings** through strategic resource allocation and vendor negotiations.
- Increased revenue by 40%** through proactive management of change requests at Veripark.
- At Microsoft India (R&D), **achieved 100% automation** of CI/CD pipelines for Microsoft Volume Licensing.
- Implemented CI/CD pipelines for **Merrill-Lynch Wealth Management**, achieving **100% automation** and high efficiency in handling HNI transactions.
- Successfully implemented **Concierge Video Service and Branch Appointment Scheduler** for Diebold Systems India's ATM network.

Work Experience

Since November 2021 | KFin Technologies Ltd., Hyderabad | Senior Program Manager

- Leading large-scale, end-to-end digital initiatives for financial services platforms, ensuring alignment with business goals and regulatory standards.
- Governing cross-functional collaboration among developers, analysts, QA teams, and PMO to streamline execution and ensure cohesive program delivery.
- Managing technology roadmap execution across multiple business units with a focus on enterprise-level modernization and customer-centric design.
- Driving continuous improvement through Agile practices, sprint retrospectives, and adoption of modern engineering practices.
- Providing strategic guidance to C-level stakeholders and ensuring consistent reporting on progress, risk mitigation, and benefits realization.
- Coordinating cross-departmental training programs to strengthen delivery frameworks and enhance team capability.

Key Achievement:

- Successfully implemented governance frameworks that improved project visibility and reduced escalation frequency.

November 2019 - October 2021 | Xoot Access Technologies Pvt. Ltd. – Hyderabad | Program Manager

- Managed program-level execution for healthcare technology products including Practice Management and EHR platforms.
- Worked with product, QA, and engineering teams to build scalable and compliant systems within defined quality standards.
- Designed and enforced new project lifecycle protocols to reduce delivery delays and increase traceability.
- Conducted periodic audits and risk reviews to ensure compliance with both internal and external guidelines.
- Coordinated technical workshops for client onboarding and system utilization.

October 2018 - October 2019 | Veripark Software India Pvt. Ltd., Hyderabad | Senior Project Manager

- Led financial services technology projects focusing on CRM and loan origination solutions for major banking clients.
- Collaborated with international stakeholders and onsite teams to define requirements and deliver tailored software.
- Oversaw sprint planning, risk management, and contract deliverables as per SLAs.
- Facilitated end-user testing, acceptance cycles, and deployment schedules.

October 2016 - October 2018 | Accenture Solutions India Pvt. Ltd., Hyderabad | Project Manager

- Directed the execution of large enterprise applications supporting banking, legal, and automotive business units.
- Coordinated multi-vendor teams for development, testing, and integration across global locations.
- Ensured change management and version control processes were followed rigorously during platform upgrades.
- Managed scope, schedule, and budgets for multiple concurrent workstreams.

September 2015 - September 2016 | Prospecta Technologies India Pvt. Ltd., Vishakhapatnam | Project Manager

- Led software implementations focused on aviation logistics and safety management systems.
- Partnered with airline and airport clients to understand operational challenges and develop tailored IT solutions.
- Ensured compliance with aviation safety protocols during all stages of system development.
- Oversaw third-party integrations and real-time data capture modules.

November 2012 - March 2015 | Diebold Systems India Pvt. Ltd. – Hyderabad | Project Manager

- Managed deployment of customer-facing banking solutions including video concierge and appointment scheduling systems.
- Liaised with clients, regulatory bodies, and internal R&D to ensure compliance and successful rollouts.
- Developed test cases and led UAT efforts in collaboration with client-side IT teams.

January 2010 - November 2012 | Microsoft India (R&D) Pvt. Ltd. – Hyderabad | Senior Software Engineer

- Contributed to enterprise software automation and pipeline optimization within the Volume Licensing domain.
- Participated in architecture reviews and technical documentation for CI/CD rollout.
- Collaborated with global teams to standardize automation scripts and deployment logic.

October 2006 - January 2010 | Tech Mahindra / Infosys Technologies Ltd. – Hyderabad | Technology Lead

- Managed integration projects for banking clients with a focus on wealth management systems.
- Facilitated workshops for technical teams on CI/CD best practices.
- Led enhancement of order entry workflows for high-value client accounts.

February 2003 - October 2006 | Energy Solutions International India Pvt. Ltd – Hyderabad | Software Engineer

- Customized enterprise software solutions for the oil and gas industry.
- Conducted FAT/SAT procedures and ensured seamless SCADA system integration.
- Provided on-site support and remote troubleshooting across international client sites.
