My professional interests are in to Telecom OSS,Telecom Service Fulfillment , Telecom Order solution designing, Telecom provisioning and activation,Telecom COTS product Implementation azure opeAI

SKILLS

- Kubernetes
- Telecom OSS
- Soap UI
- Functional Testing
- core java
- NFV
- Automation Testing
- Protractor
- Large Language Model
- OCP
- UNIX
- Selenium
- Cucumber
- Service Fulfillment
- Cramer
- Test Lead
- Testng
- Jenkins
- Core Java
- API Testing
- JIRA
- Software Defined Networking
- OSS
- Telecom Testing
- Blue planet inventory

CERTIFICATION

- Microsoft Certified: Azure Fundamentals

WORK EXPERIENCE

Automation Test Specialist - Amdocs

Dec 2021 - Present

- Developed automation scripts for Amdocs catalogue using Selenium Web Driver and Java, resulting in increased efficiency and accuracy.
- Implemented Jenkins pipeline for continuous integration and continuous deployment (CI/CD) to streamline the development process.
- Executed API automation to improve the overall functionality and performance of the system.
- Utilized cicdTools to enhance the development lifecycle and accelerate time-to-market for products.

Senior Technical Specialist - Brillio Technologies Pvt. Ltd

Jan 2021 - Nov 2021

- Implemented automated testing procedures for Ciena Blueplanet software
- Created and executed test cases using automation tools to increase test coverage and efficiency

Software Test Lead - Amdocs

Mar 2015 - Jan 2021

- Developed comprehensive test plans, test cases, and test scripts for OSS software
- Identified and reported software defects, and managed them through to resolution

- Collaborated closely with cross-functional teams to ensure the high quality of software products

software engineer - TechMahindra

Mar 2012 - Mar 2015

- Implemented Sigma SMP COTS product for Ziggo Netherlands, ensuring smooth integration and functionality
- Led the successful implementation of Sigma SMP COTS product for Ziggo Netherlands, resulting in enhanced operational efficiency

PROJECTS

At&T Canopi

60 Months

- Developed OSS solution for AT&T to establish connections between network systems such as Juniper, Ciena EMUX, and Ciena NTE using UNI, EVC, LAG, and CNL protocols.

Sigma SMP-Business HSD-Voice-Fiber Service Provisioning

24 Months

- Spearheaded a major program to automate the provisioning of Business Voice services across Liberty Global (LG) group operations
- Played a key role in selecting Sigma for fulfillment automation, enhancing operational efficiency
- Identified the limitations of the existing Derby/Arbor and Taifun platforms, prompting the need for future-proof business product development requirements
- Expanded the scope of the implementation to incorporate certain components of the existing Residential stack, ensuring comprehensive service delivery
- Orchestrated the integration of Business Access Data and Hosted PBX services, laying the foundation for future management of other services including Business Voice, BSOD, Carrier Ethernet, and more

Sigma SMP, Residential service Provisioning and fulfillment

24 Months

- Implemented Sigma, the Telecom service provisioning and Fulfillment COTS, for the first time to facilitate the successful launch of the client's pioneering Mobile(Converged), VoIP, Telephony, and Internet services in Europe.

Blue planet inventory migration

12 Months

- Conducted testing for Blue Planet inventory and Cramer as part of the Ciena Telstra migration task.
- Verified the functionality and compatibility of Blue Planet inventory and Cramer for seamless integration during the Ciena Telstra migration.

Amdocs Catalog one

36 Months

- Automated testing of Amdocs catalog one products in the R&D division to improve efficiency and accuracy.
