EDUCATION

IIT JODHPUR

B.TECH IN BIOENGINEERING

MAY 2024, | JODHPUR, INDIA

SIMPKINS SCHOOL AGRA

CLASS 12 | 2017-2019

Percentage: 87.4

SUMMET RAHUL GOEL MEMO.

SCHOOL

CLASS 10 | 2015-2017

CGPA : 10

COURSEWORK

SOFTWARE

- LLMs and Deep Learning
- Programming in Python and R
- Data Structures and Algorithms
- Pattern Recognition and Machine Learning
- Cloud Platform and AWS
- Generative AI and Development
- Microsoft Power BI and Tableau

HARDWARE

Data Storage and Retrieval & Design
Digital Computer Design

SKILLS

PROGRAMMING

Python • C++ • C • R • SQL • HTML •
CSS • JAVASCRIPT • Java

MACHINE LEARNING

PyTorch • TensorFlow • Sckit-Learn •
Numpy • Pandas • Hugging face •
Fine Tuning

TOOLS/APPLICATIONS

Visual Studio • OpenAI/Claude • AI
Chatbots • Custom GPT • PyQt •
Power BI

OPERATING SYSTEMS

MacOS • Linux • Windows

PROJECTS

3D AI CHATBOT | JULY 2024- AUG 2024

- Engineered a 3D AI chatbot using OpenAI models, combined with Eleven Labs for voice synthesis, 3D Avatar, Mixamo animations, and Rhubarb Lip Sync for lifelike interactions with AI-driven character simulation.
- Implemented real-time lip-sync and emotion-driven facial expressions, enhancing user engagement through synchronized speech and animations, seamless integration of APIs, ensuring efficient data handling and optimized performance.

AI CHARACTER CHATBOT PROJECT | JUNE 2024-JULY 2024

- Developed 300+ character-driven chatbots using GPT and Gemini models, automating deployment for efficient launches and updates.
- Designed prompts to define character traits, storylines, and adaptive conversational styles with advanced response logic. Enhanced user engagement through humor, storytelling, and secure handling of off-topic inquiries.

STEREO TO 3D AI AUDIO CONVERTOR | JULY 2024-SEPT 2024

- Developed an AI-driven system for converting stereo audio into immersive 3D audio, leveraging advanced spatial positioning algorithms for VR and gaming applications.
- Created custom 3D audio effects with precise azimuth, elevation, and distance modeling for realistic experiences. Built a Flask-based web interface for audio uploads, customizable 3D parameters, and processed file downloads.

EXPERIENCE

GEN AI DEVELOPER (KUKU FM) | MAY 2024

- Spearheaded AI-based automation and analysis projects, optimizing workflows and delivering actionable insights across multiple domains.
- Delivered seamless API integrations, ensuring performance optimization and scalability for AI-driven applications.
- Developed and implemented advanced AI solutions, including a 3D AI Chatbot, a Stereo-to-3D Audio Converter, and 300+ character-driven chatbots with adaptive conversational logic and automated deployment.
- Engineered AI-driven book translation systems with contextual accuracy and NLPs, and developed AI-based web scraping tools for efficient data collection and analysis.

ACHIEVEMENTS

- Internship In Forage Pvt. Ltd. as AI Data Analyst.
- Represented IIT Jodhpur in Technical Fest Prometeo'22 and STUDENT GUIDE, SWC IIT JODHPUR.

POSITION OF RESPONSIBILITY

FESTIVAL CHIEF "VARCHAS" | JUNE 2022 - DEC 2022

- Organised the Annual Inter College Sports Festival of IIT Jodhpur.
- Hosted 20+ colleges and 2000+ students from all over India
