PROFESSIONAL EXPERIENCE

Megamind IT

Jan 2024 – April 2024

Machine Learning Research Intern

- Developed and optimized machine learning algorithms, resulting 94% performance improvement over baseline and conducted 20+ literature reviews to stay updated on industry advancements.
- Collaborated with interdisciplinary teams of 10 members to design and implement machine learning models for various projects.

Safear Defense India

Dec 2023 – Jan 2024

Python Developer (Intern)

- Built several modules using Python as a backend programming language along with developing and maintaining 10+ Python modules to enhance system functionality.
- Handled script tasks for debugging and automation using Python and automated 50+ manual tasks and coordinated with a team of 4 members for 10 integration tasks.

Alfido Tech

Sept 2023 – Nov 2023

Data Analyst

- Accomplished data analytics tasks, handled data cleaning, visualization, and produced analytical reports using tools like Excel and Power BI, resulting in a 15% improvement in data comprehension and decision-making efficiency.
- Leveraged the functionalities of Spark in Python to distribute data processing on large streaming datasets to improve ingestion and processing of that data by 65%.

PROJECTS

Python Chatbot

- Crafted a Chatbot using advanced NLP techniques, Flask framework, HTML, CSS and JavaScript along with jQuery to handle HTTP requests from the backend server.
- Used the functionality of Microsoft DialoGPT that draws 147M multi-turn dialogues from discussion threads on Reddit.

Autonomous Tagging of Stack Overflow Questions

- Executed a multi-label classification system to automatically assign tags for questions posted on forums like Stack Overflow or Quora.
- Utilized classical classifiers such as SGC, Multinomial Naïve Bayes Classifier, and Random Forest, achieving an average accuracy of 85% across multiple datasets. Implemented classical classifiers such as SGC, Multinomial Naïve Bayes Classifier and Random Forest.

EDUCATION

Takshshila Institute of Engineering and technology, Jabalpur, Madhya Pradesh

Jul 2019 – Jul 2023

BTech.in Computer science Engineering

SKILLS & OTHER

Data Science/ Machine Learning/ Deep Learning: Python, Data Cleaning and Visualization, Supervised /Unsupervised learning algorithms, Neural Networks, EDA, ETL, Feature Engineering, Feature Selection and Extraction.

Packages and Frameworks: Scikit-Learn, TensorFlow, Keras, NLTK, Cloud Vision, pandas, NumPy, SciPy, Beautiful Soup, Selenium, PySpark, Hugging Face, Lang Chain, GGML, Flask and Django

Tools/ Programming Languages: Microsoft Office Suite (Excel pivot, macros, deck-writing), GitHub, AWS, Azure, Google Cloud, SQL, Postgres, Cassandra, HTML, CSS, Java, JavaScript, ReactJS, Python, Go, C, C++

ACHIEVEMENTS

- Solved 100+ problems on Leetcode and 100+ problems on Coding Ninjas.
- Co-authored a book named 'Roses and Flames' in the year 2019.
