

SUDHIR KUNDAR BOLANAKERE

Senior Manager, Software Engineering

✉ sudhirkundarbolanakere@gmail.com ☎ +919845102383 💻 linkedin.com/in/sudhirkundar 📍 Bengaluru, India

Professional Summary

Strategic Engineering Leader with over 21 years of experience in product engineering and distributed system architecture, specializing in modernizing complex enterprise platforms. Proven track record of driving large-scale software delivery, defining engineering strategy, and leading high-performing global teams. Expertly guides architectural vision, scales Agile practices, and optimizes delivery processes to achieve operational efficiency, product reliability, and business impact. Fosters a culture of innovation, ownership, and excellence through strong stakeholder leadership and cross-functional collaboration, consistently building and empowering teams to deliver measurable results.

Work Experience

09/2020 - Present
Bengaluru

Senior Manager, Software Engineering

Anthology International Pvt. Ltd.

- Led the architecture and full rebuild of a 25-year legacy platform into a modern cloud-native solution using .NET Core, React, RabbitMQ, and PostgreSQL, achieving substantial improvements in scalability, performance, and long-term maintainability.
- Provided technical leadership and guidance on critical design and architectural decisions, aligning technology strategies with business goals to deliver impactful, scalable products.
- Managed and mentored software development teams, defining product scopes, establishing timelines, and allocating resources to ensure project completion using Agile methodologies.
- Cultivated high-performing engineering teams across India and the U.S., fostering ownership, accountability, and continuous learning.
- Collaborated closely with product, architecture, and business stakeholders to drive alignment, accelerate delivery, and ensure measurable business impact.

05/2018 - 09/2020
Bengaluru

Software Development Manager

Huron Consulting Group

- Strengthened engineering delivery by maturing Agile execution, enforcing architectural best practices, and implementing HL7/FHIR interoperability standards.
- Significantly improved healthcare data exchange, compliance, and enterprise system integration through strategic initiatives.
- Identified and mitigated risks in software development, addressing challenges and developing contingency plans to minimize impact on product delivery.

01/2017 - 05/2018
Bengaluru

Development Manager

Prime Focus Technologies Pvt. Ltd

- Drove engineering process transformation, improving sprint predictability, development throughput, and cross-team collaboration.
- Led multiple engineering transformation initiatives, adopting Agile and DevOps across the enterprise.
- Improved sprint planning, delivery predictability, and release management through workflow automation with Azure DevOps CI/CD.

08/2012 - 12/2016
Bengaluru

Associate Development Manager

Campus Management International Pvt. Ltd

- Managed and coordinated software development projects, defining product scopes and allocating resources to ensure timely completion.
- Implemented industry-standard quality assurance practices, including code reviews, testing strategies, and automation.
- Improved team delivery and quality by managing backlogs, preventing overcommitment, and prioritizing bug fixes, leading to timely project delivery and stable product releases.

10/2010 - 07/2012
Bengaluru

Technical Lead

CCH Prosystem India Pvt. Ltd.

- Provided technical leadership and hands-on expertise in Agile delivery, DevOps enablement, and CI/CD (Azure DevOps).
- Conducted architectural reviews, service design, and built reusable engineering frameworks.
- Optimized build and deployment pipelines, strengthening release processes, and ensuring platform stability.

02/2009 - 09/2010
Bengaluru

Member Of Technical Staff

Prime Focus Technologies Pvt. Ltd.

- Contributed to the development and implementation of the CLEAR - BCCI Archives project, digitizing and managing vast cricket footage archives.
- Assisted in transforming historical moments into a cloud-based, searchable, and metadata-rich library, enabling efficient content discovery and repurposing.

10/2005 - 01/2009
Mangaluru

Software Developer

ADSNetCurve Inc

- Contributed to the modernization of over 1,200 legacy VB forms, enhancing system maintainability and reducing operational cost.
- Developed and implemented the 'People Strategy' HCM platform, streamlining employee lifecycle processes from recruitment to payroll and performance management.

08/2003 - 09/2005
Mangaluru

Software Developer

Orion Technologies

- Developed the Rev-A-Shelf e-commerce platform, offering an extensive catalog of home organization solutions online.
- Implemented features for real-time inventory updates, product comparisons, and customization options, enhancing customer engagement and global reach.

07/2002 - 07/2003
Mangaluru

Lecturer

Canara Engineering College

Delivered engaging and well-structured lectures in C/C++, Computer Networks, simplifying complex topics through real-world examples and interactive discussions. Mentored students academically and professionally, providing guidance on projects, career planning, and skill development. Contributed to curriculum design and continuous course improvement based on student feedback and evolving industry trends. Fostered a collaborative and inclusive learning environment, encouraging critical thinking.

07/2001 - 07/2002
Mangaluru

Teaching Faculty

Aptech Computer Education

Delivered training on core computer science subjects including C/C++, .NET, Data Structures, Web Technologies, and MS Office tools. Designed and updated curriculum, training materials, and lab exercises tailored to student needs. Conducted theory and practical sessions, ensuring strong conceptual understanding and hands-on proficiency. Mentored students for academic projects and

career guidance in IT fields. Assessed student performance through regular evaluations and provided constructive feedback

Notable Achievements

- ✓ Spearheaded the architectural redesign and full rebuild of a 25-year legacy platform at Anthology, transforming it into a modern cloud-native solution and significantly enhancing scalability, performance, and long-term maintainability.
- ✓ Drove engineering process transformation initiatives at Prime Focus Technologies, improving sprint predictability, development throughput, and cross-team collaboration.
- ✓ Strengthened engineering delivery at Huron Consulting Group by maturing Agile execution and implementing HL7/FHIR standards, significantly improving healthcare data exchange and system integration.
- ✓ Modernized over 1,200 legacy VB forms at ADSNetCurve, enhancing system maintainability and reducing operational cost.

Projects

Anthology Encompass Engagement Platform

- Developed and led the Anthology Encompass cloud-based engagement platform, unifying online giving, event management, and digital communications for higher-education institutions.
- Integrated advanced analytics to optimize fundraising strategies and enhance constituent participation, supporting personalized outreach and secure payment processing.
- Promoted cross-functional collaboration across advancement, alumni relations, and marketing teams, enabling data-driven decision-making and long-term community engagement.

Huron Research Suite Administration Platform

- Designed and implemented the Huron Research Suite, a cloud-based research administration platform for higher education institutions.
- Streamlined and automated processes including grants, contracts, IRB oversight, and clinical trial workflows.
- Ensured interoperability through HL7 and FHIR standards, enhancing data exchange and regulatory compliance, and boosting efficiency across the research lifecycle.

CLEAR - Media ERP Suite

- Architected and deployed CLEAR, a hybrid cloud platform that streamlines and automates the end-to-end media content lifecycle for studios, broadcasters, and streaming platforms.
- Integrated asset management, production workflows, broadcast operations, and global distribution into a single system.
- Drove operational efficiency, reduced costs, and accelerated digital transformation for global media companies.

Campus Nexus Student Information System

- Managed the development of Anthology CampusNexus Student, a modern cloud-based Student Information System (SIS).
- Enabled comprehensive management of the student lifecycle from recruitment to alumni engagement.
- Provided real-time analytics, configurable workflows, and automation for key processes, enhancing data accuracy and transparency.

ProSystem fx Accounting & Tax Software

- Contributed to ProSystem fx, a comprehensive suite of professional accounting and tax software for firms and finance departments.
- Streamlined operations for tax compliance, audit management, and document workflow, improving accuracy and productivity.
- Automated compliance tasks and centralized client information, delivering secure and scalable financial reporting.

CLEAR - BCCI Cricket Footage Archives

- Led the specialized implementation of CLEAR Media ERP Suite for BCCI, digitizing and managing vast cricket footage archives.
- Transformed decades of match recordings into a cloud-based, searchable, and metadata-rich library.
- Enabled efficient content discovery, repurposing, and global accessibility, preserving legacy and unlocking new revenue streams.

People Strategy HCM Platform Migration

- Managed the migration and development of the People Strategy HCM platform, streamlining the entire employee lifecycle.
- Unified HR functions including recruitment, onboarding, payroll, benefits, and performance management into a single secure system.
- Implemented employee self-service and real-time analytics, automating workflows and providing actionable workforce insights.

Rev-A-Shelf E-commerce Platform Development

- Developed the Rev-A-Shelf e-commerce platform, presenting home organization solutions directly to consumers and distributors.
- Integrated features for real-time inventory updates, product comparisons, and customization options.
- Enhanced accessibility, customer engagement, and global reach for retail and B2B markets through modern e-commerce technologies.
