SUMMARY

I help organizations solving **business** and **technical** challenges with customer-centric mindset and “business-first, technology-next” approach. Believer of leading by example.

Demonstrated expertise of nearly 20 years including fields of **Data Science**, **Blockchain**, Software Development, Architecture and various other technologies, and domains like **Finance**, **Investment Banking** and few more. Passionate about Knowledge and Excellence.

Intraday Trading in NSE Futures and Index Options, Crudeoil and Cryptocurrency (BTC, ETH) futures and options.

TECHNICAL SKILLS

- **Data Science:** Machine Learning, Deep Learning, Exploratory Data Analysis, Linear Regression, Logistic Regression, Classification, Feature Engineering, Time Series, Clustering, Statistical Modeling, scikit-learn, Data Analytics, Decision Tree, , Data Visualization, Plotly, Fraud Detection, Quantitative Analytics, Statistics
- **Blockchain:** Ethereum, Hyperledger Fabric, Polygon, Corda, Smart Contracts, Chaincode, Security, Cryptocurrency, Web3, NFT, DeFi, ERC20, ERC721 token standards
- **Languages:** Python, Solidity, Golang, Rust, Java, Node.js, JavaScript, PL/SQL, JuliaLang, C, C++
- **Big Data & Database:** Snowflake, PySpark, Hadoop, Oracle, MongoDB
- **Cloud:** OpenShift, GCP, AWS, Azure
- **Frameworks:** Spring Boot, Kafka, Consul, Zuul, Eureka, Hibernate, OAuth2, Microservices
- **Other:** Microsoft Excel, Jupyter notebook, Git, Unix, Visio, JIRA, TeamCity, Jenkins, Encryption
- **Finance:** Black-Schole model, Swaps, Options, Derivatives, Economics, Corporate Finance, Fixed Income, Financial Statement Analysis, Market Risk, Credit Risk, Capital Market, Quantitative Finance, ESG Investing, Quandl, QuantLib, Yahoo Finance, VaR Calculations, Ratios analysis, DCF Valuation
- **Trading Scripts:** Pine Script, TradingView
- **Quantum Computing**
- **Stock Market:** Technical Analysis, Indicator, Support and Resistance, Trendlines, Dow Theory

WORK EXPERIENCE

Fincienysis – Self Employed

Pune, India

Freelancer | Machine Learning, Blockchain, Finance

Jan-2023 to Present

- Developed S&P Index Price forecasting model for client.
- Developed TradingView Indicators and Strategies back-testing for Stocks and F&O (Derivatives) market on various charts and time-frames.
- Blockchain code development for academic projects: Pharma Network to prevent drug-counterfeiting and Property Registration Network – Hyperledger Fabric, and KYC for Bank customers on Ethereum.
- Machine Learning Project development for academic projects: Analysing customer data and predicting suitable type of credit card.
- Tensorflow based model to predict house prices using images and other attributes.
- Prototyped Interest Rate Swaps (IRS) Pricing model.
- Intraday trading in Indian stock index options.
- Intraday trading in Crudeoil and Cryptocurrency (BTC, ETH) futures and options.
- Develop trading strategies and create algorithms using pinescript and python language.

BNY Mellon

Pune, India

VP | Sr Specialist Data Scientist for Treasury Business

Sep-2020 to Jan-2023

- Develop machine learning models for anomaly, fraud detection in transactions across 5 LOBs.
- Detecting probable customer attrition from Treasury business.

- Build price forecasting Models for Time-Series data and Stock Market prices, ETF, Equity Indexes for various portfolios using Regression, ARIMA, ARCH, LSTM models to form base for 3 BU's.
- NLP Based text analysis solutions for Named Entity Recognition and classify the trading sentiments targeting 95% accuracy.
- Build end to end data pipelines for data injection to Snowflake, data cleansing, data processing, model building, model evaluation, prediction saving 70% of template work.

Deutsche Bank

Pune, India

AVP | Big Data Analytics for Regulatory Business

Aug-2015 to Sep-2020

- Architected Spark, Tableau, BO ETL pipeline, data-warehouse platform from ODS across 5 projects.
- Built Regression model to forecast count of cases, and amount bank needs to pay for next year.
- Engineered, coded and integrated SaaS (NetDocuments) component on cloud in 2 months.
- Developed Regulatory Trade Reporting solutions as per regulations: MAS, FCA, ASIC, HKMA
- Evolved MiFID II (ESMA Regulatory for OTC products), Brexit on-premise and AWS based solution.
- Migrated ANNA-DSB's FIX API interface to REST web-services preventing 30% of defects.
- Achieved low latency responses across applications-chain within 50 microseconds.

Barclays Investment Bank

Pune, India

- | | |
|--|---------------------|
| • CFA® Institute, USA — Pursuing Chartered Financial Analyst® (CFA®) | May – 2023 |
| • SSBM Geneva — Doctoral Scholar | Feb 2022 – Feb 2025 |
| • I.I.T. Bangalore, IN — PG Certification in Blockchain Technology | Dec 2021 – Oct 2022 |
| • I.I.T. Roorkee, IN — PG Certification in Machine Learning for BFSI | May 2021 – Oct 2021 |
| • C-DAC, Pune, IN — Diploma in Advanced Computing | Jul 2004 – Feb 2005 |
| • R.I.T. Shivaji University, IN — Bachelor of Engineering (Mechanical) | May 1995 – May 1999 |

CERTIFICATIONS

- Bloomberg Market Concepts: Certification in Financial Markets
- Bloomberg ESG: Environment, Social, Governance in Investing and Analysis
- Financial Risk Modeling using Python – Pluralsight
- Certified Developer and Expert by BTA and Blockchain-council in: Ethereum, Hyperledger Fabric, Blockchain Security, Cryptocurrency, Polygon, Corda, Blockchain Solution Architecture
- Certified Go Language (Golang) Professional – VSkills
- Big Data engineering with Hadoop & Spark – IIT Roorkee
- GCP: Complete Google Cloud Architecture on Udemy
- Certification in Quantum Computing

ACHIEVEMENTS & INTERESTS

- Received first position out of 100 students in PG Certification for Artificial Intelligence at IIT Roorkee
- Received third position out of 120 in Diploma in Advanced Computing at C-DAC Pune University
- Presented with Recognition Award of Excellence in 2017, 2019 by Deutsche Bank.
- Conferred with Employee of the Month Awards consistently during 2007 to 2009 at Amdocs.
- Scored 92 Percentile in GATE exam
- Qualified in the Services Selection Board (SSB) exam for Indian Air Force.
- **Marathon** runner, Swimming, Badminton, Rubik's cube, playing tabla, juggling balls, chess are few hobbies.
