

Pavan kumar V

DevOps Engineer

Email ID: pavanveeranki449@gmail.com

Mobile No.: +91-9121077516

Professional Summary:

- 1.6 years of experience as a **DevOps Engineer** in automating and optimizing mission critical deployments over large infrastructure. Proficient with configuration management tools, and deploying CI /CD pipelines.
- Experience into maintained Git workflows for version control (source code management)
- Good experience into developed and maintained the CI / CD pipelines for deployment using Jenkins.
- Experience in provisioned servers and deployed features using puppet/ Chef / Ansible.
- Expertise in Built and deployed the Docker containers for implementing Micro service architecture from the monologic architecture.
- Good experience into creating Docker container clustering using kubernetes/ Docker swarm.
- Proficient with various deployment, testing and deployment tools like Git, Jenkins, Docker, Kubernetes, puppet, chef, Ansible and Nagios
- Good understanding of DevOps key concepts like Infrastructure as code (IAC), IAAS, PAAS and SAAS.
- Participated in weekly status meetings with Vendors and clients to discuss open issues.
- Operational support for any production related issues.
- Having experience in writing UNIX and Linux commands.
- Knowledge in writing Linux scripting languages.
- Importing and exporting data/reports from UNIX environment to windows using Bugzilla.
- Data Validation and comparing data from both production servers and data base.
- Involved in issue resolution by interacting with developers, business analysts.
- Experience in all phases of Software Testing Life Cycle (STLC), Software Development Life Cycle (SDLC), Bug life cycle and Methods like Agile
- Good exposure to formal quality processes and strong foundation in SDLC and Software Testing life cycle (STLC) and Bug Life Cycle.
- Knowledge of writing **SQL** Queries and executing database packages.
- Prepared the data to cover various scenarios, and wrote **SQL** scripts to verify the database updates, inserts and deletion of the records.
- Ability to work independently in a fast-paced environment with tight deadlines and changing priorities.

Technical Skills:

Methodologies	:	SDLC – Agile/Scrum/
Automating tools	:	Chef/Puppet/Ansible
Build Tools	:	Maven
CI Tools	:	Jenkins
Version Control Tools	:	GitHub
Cloud servers	:	AWS, MS Azure, GCP.
Web Servers	:	Apache, Nginx, tomcat.
Databases	:	MySQL, Mongo DB.
DevOps keys concepts	:	(IAC), IAAS, PAAS and SAAS.
Knowledge on Programming Languages	:	Java, Python.
Operating Systems	:	Windows
API Test Tools	:	Postman
Testing Tools	:	Selenium

Professional Experience:

- Currently working as a **DevOps Engineer** in **Accenture Pvt. Ltd** from Sep 2021 to Mar 2023.

Project - 1

Project Name	:	Marketing- Promotion
Client	:	Wal-Mart, China
Environment	:	GitHub, Jenkins, Azure, deployments and maintenance.
Tools	:	Jenkins, GitHub, Azure and Chef
Test Management Tools	:	JIRA
Duration	:	June 2022 to Mar 2023
Team Size	:	6

Description:

Walmart has opened thousands of stores in the U.S. and expanded internationally. Through innovation, we're creating a seamless experience to let customers shop anytime and anywhere online and in stores. We are creating opportunities and bringing value to customers and communities around the globe. Walmart operates approximately 10,500 stores and clubs in 20 countries and ecommerce websites. We employ 2.1 million associates around the world — nearly 1.6 million in the U.S. alone.

Responsibilities:

- Writes specs and instructions for the feature on the server- side
- Managing and troubleshooting of Linux operating system issues, kernel tuning and troubleshooting
- Deploying Linux scripting languages/python and Ansible.
- Application debugging with the Heap Dump.
- To rectify faults support of huge environment patch administration.
- As per client \system requirement adding (or) removing the patches.
- Optimizing and tuning SRE tools- Git and chef.
- Deploying CI/CD by using Jenkins.
- GitHub migration and transformation.
- Supporting the production team on technical issues.
- Build, manage and maintaining the tools for deployment, monitoring and operations.
- Defect tracking through **JIRA**
- Attending training within the organization.

Project- 2

Project Name	:	Secure ID
Client	:	T-Mobile, USA
Environment	:	GitHub, Jenkins, Azure, deployments and maintenance.
Tools	:	Jenkins, GitHub, Azure and Puppet
Test Management Tools	:	JIRA
Duration	:	Aug 2021 to May 2022
Team Size	:	8

Description:

T-Mobile US, Inc. is an American wireless network operator partly owned by German telecommunications company Deutsche Telekom (DT) since 1999; Deutsche Telekom has owned the holding T-Mobile International AG for its mobile communications subsidiaries.[1] From 2003 to 2007, T-Mobile International was one of Deutsche Telekom's services, in addition to 'Broadband-Fix net', 'Business Customers' and 'Group HQ and Shared Services'. In 2009, Deutsche Telekom transformed its structure to adopt a regional setup (Germany,

Europe, and USA). By combining its previously separated fixed and mobile subsidiaries to form integrated local businesses, T-Mobile International itself was merged into Deutsche Telekom AG.

Responsibilities:

- Writes specs and instructions for the feature on the server- side
- Managing and troubleshooting of Unix operating system issues, kernel tuning and troubleshooting
- Deploying **UNIX** scripting languages/python and Puppet.
- Application debugging with the Thread Dump.
- To rectify faults support of huge environment patch administration.
- As per client \system requirement adding (or) removing the patches.
- Optimizing and tuning SRE tools- Git and Jenkins.
- Deploying CI/CD by using Jenkins.
- GitHub migration and transformation.
- Supporting the production team on technical issues.
- Build, manage and maintaining the tools for deployment, monitoring and operations.
- Defect tracking through **JIRA**
- Attending training within the organization

Educational Details:

Bachelors Degree in **Information Technology** in 2021 from Vikas engineering college, Vijayawada, JNTU, Kakinada.
