Power BI

Batch Script

Fabric Data Pipelines

Data Warehousing with Microsoft Fabric

Pyspark

Professional Experience

11/2023 – Present
Delhi, India

Data Analyst

B3intelligence

- **VBA & Macros:** Expert in developing and maintaining VBA scripts to automate repetitive tasks in Excel, powerpoint, specifically tailored for market research workflows. Automated processes such as survey data cleaning, aggregation, and customized report generation, enhancing productivity and accuracy.
- **Python & Automation:** Proficient in creating Python scripts for data processing, ETL (Extract, Transform, Load) tasks, and advanced analytics. Leveraged Pandas, Numpy for survey data manipulation and PySpark for processing large-scale datasets, enabling efficient handling of multi-million record surveys.
- **SQL & Data Management:** Skilled in writing complex SQL queries to retrieve, analyze, and manipulate extensive survey and respondent data from relational databases. Delivered accurate insights and supported strategic decision-making for market research projects.
- **Data Factory & Data Pipelines:** Experience in designing and managing data pipelines using Fabric Data Factory to automate and orchestrate data workflows. Built scalable ETL pipelines to process and integrate market research data from multiple sources, ensuring consistency and reliability across projects.
- **Power BI & Data Visualization:** Designed and developed dynamic Power BI dashboards to present market trends, customer insights, and survey findings. Customized dashboards to meet client requirements, translating complex datasets into actionable visual insights.

- **Batch Scripting & Workflow Optimization:** Developed batch scripts to automate file management, task scheduling, and other routine operations, optimizing workflows for market research activities.
- **Integrated Data Solutions:** Proficient in combining tools like Python, SQL, Data Factory, and Power BI to build end-to-end solutions for market research projects. Automated processes from data collection to reporting, ensuring seamless delivery of actionable insights to clients.

08/2023 – 11/2023
Jaipur, Rajasthan

Data Analyst
ContecHub Private Limited
Expertise in web scraping using libraries like BeautifulSoup and Selenium to collect different competitors data.

Managed data warehousing and lakehouse, ensuring efficient execution of data pipelines for seamless data integration and analytics."

10/2021 – 01/2023
Jaipur, Rajasthan

Data Process Executive
BYJU,S

- Analyzed sales data in Excel to identify trends, patterns, and key performance indicators (KPIs) related to customer leads.
- Used advanced Excel functions, such as VLOOKUP, SUMIFS, and pivot tables, to evaluate and segment leads based on quality and potential value.
- Conducted market research to identify potential customers and target segments.

Education

07/2019 – 07/2021 Kota, Rajasthan	Bachelor's degree, Mathematics University of Kota
07/2017 – 05/2018 Bhawani Mandi, Rajasthan	12th SALP. School
07/2015 – 04/2016 Bhawani Mandi, Rajasthan	10th AVM School

- Hindi

Certificates

Jan - 2023 Aug 2023 – I successfully completed a comprehensive four-month course through Trainity, where I gained valuable hands-on experience by actively participating in various challenging projects. This intensive program provided me with a strong foundation in data analytics. and equipped me with practical skills that I applied in real-world scenarios
