Academic Details

- Bachelor of Engineering (B.E.)
Computer Science Engineering (A.I. & ML)**
Chandigarh University, Punjab;
CGPA: 7.78
(PASSOUT - May, 2024)

Technical Skills

- Data Analysis:**
NumPy, Pandas, SQL
- Machine Learning:**
Scikit-Learn, TensorFlow, PyTorch
- Programming Language:**
Python (Proficient)
- Version Control:**
GitHub, Git
- Data Visualization:**
Matplotlib, Tableau, Power BI
- NLP:**
Text analysis, Keyword extraction
- AI/ML Techniques:**
Model Training, Data Preprocessing, Hyperparameter Tuning
- Statistics:**
Hypothesis testing, Data Distribution

Core Competencies

Problem-Solving

Machine Learning

Version Control

Natural Language Processing

Data Visualization

Statistical Analysis

Personal Details

Date of Birth: 30th January 2002
Languages Known: English, Hindi
Address: Varanasi, Uttar Pradesh

Profile Summary

Highly motivated and results-oriented Junior Data Scientist with a strong foundation in machine learning, statistical modeling, and data analysis. Proven ability to leverage Python libraries (TensorFlow, Scikit-learn) and SQL to build and optimize predictive models, analyze large datasets, and generate actionable insights. Skilled in data visualization (Matplotlib, Tableau) for clear communication of findings. Eager to contribute expertise to impactful projects and continuously learn within a dynamic team environment.

Work Experience

Junior Data Scientist
Vatic AI, New Jersey (Remote)

January 2024 – August 2024

- Increased model performance by 15% through analysis of large datasets to identify key trends and patterns.
- Developed and optimized machine learning models using TensorFlow and Scikit-learn, achieving a 20% reduction in error rates.
- Designed and implemented a comprehensive testing framework, validating 10 hypotheses and leading to the optimization of key algorithms. The new system now processes over 2 million data points daily with improved accuracy.
- Enhanced cross-functional team decision-making by visualizing key insights using Matplotlib, leading to a 20% increase in data-driven decision accuracy.
- Streamlined data workflows across teams by integrating data solutions with SQL and Pandas, resulting in a 15% reduction in data processing time.

Data Analyst Intern
V.EDU's Private Limited, Mumbai

June 2022 – November 2022

- Conducted in-depth exploratory data analysis to identify patterns, trends, and outliers within the dataset, leading to the discovery of [specific insight or finding] that improved business metric by 40%.
- Collaborated with cross-functional teams to understand data needs and deliver tailored solutions, improving operational efficiency by 45% and increasing revenue by certain amount.
- Designed and executed SQL queries to extract, manipulate, and analyze data from relational databases, ensuring data integrity and accuracy while reducing error rates by 25%.

Projects

Kanji Characters Analysis Tool

- Developed a Python-based tool for classifying Japanese sentences using NLP techniques and Scikit-learn, achieving a 50%-60% classification accuracy.
- Implemented kanji character counting to assign difficulty levels (Easy, Medium, Hard) and calculate difficulty scores through text analysis, improving language learning effectiveness by 45%.
- Improved language learning effectiveness by 45% by using NumPy and Pandas for preprocessing, assigning complexity levels, and calculating difficulty scores.
- Implemented a feature to measure sentence similarity, aiding language learners in content selection and improving learning outcomes by 40%.

Intent Classification LLM

- Built an advanced intent classification model using Google Gemini Pro (LLM) to identify user intents from natural language input, improving conversational AI accuracy by 15%.
- Developed and integrated a Python-based intent classification model with Google Gemini Pro for user intent analysis, reducing false positive rates by 20%.
- Enhanced model performance across various domains through fine-tuning with Scikit-learn, improving user query interpretation by 45%.

Training & Certifications

Machine Learning Training Certificate

1st July, 2023

Internship Completion Certificate

10th November, 2022
