As a highly skilled software engineer, I have consistently delivered exceptional results by utilizing well-organized and efficient practices. I am a proactive team player who is always ready to lend a hand to my colleagues to achieve the company's objectives. I excel at working under pressure and thrive in challenging situations, which allows me to elevate the organizational brand to new heights. I am always willing to take on additional responsibilities and challenges to exceed our team's goals. My extensive knowledge in products, programming, and related concepts makes me a valuable asset to any project.

WORK EXPERIENCE

Software Engineer(storage)

Ness Digital Engineering(client: Veritas&Rocket software)

07/2021 - 10/2022

Baner, Pune.

I have collaborated with software development and testing teams to design and develop reliable solutions that meet client requirements. I've installed and configured software applications, reduced dependencies, and shortened completion timeframes. I've designed top-quality assurance and testing protocols. I honed my programming and verbal communication skills while working with the team. I've worked with prestigious clients like Rocket Software and Veritas, providing professional advice on storage software projects, resulting in highly successful outcomes.

Internship

Automation and MIT tools

07/2020 - 01/2021

Pune

Tools: Perl/bash/python, MIT missing tools, [UiPath, GUI, CMD, Installation, process & environment automation, log analyzer, troubleshooting].

PROFESSIONAL PROJECTS BY CLIENTS

Netbackup: Veritas technologies (Storage domain) (01/2022 - 10/2022)

- Skills: C/C++, perl, python, shell/bash, git, linux, windows.
- Details: System programming, data structures & algorithms, logging/debugging(gdb), OOPS, multithreading, race conditions, socket programming, IPC, RPC, UAC, logger and configuration manager using singleton design patterns, PAR-PACKER, FIPS, Krypto, code & data security, services/daemons, backup/restore, HA/DR, System/product configurations, product architecture, troubleshooting & analyze logs, BPT tool (Build packages & test product).

iCluster: Rocket Software (Storage domain) (07/2021 - 12/202)

- Skills: c/c++, DB2, shell/bash, git, sql, linux, IBM-iseries.
- Details: Mirror backup, journaling, control instruction, debugging, troubleshooting, product build, HA/DR.

EDUCATION

MCA (Computer Science)

Dept. of computer science, Savitribai Phule Pune University

07/2018 - 12/2021

Pune

Grade
- cgpa - 7.2

B.Sc (Computer Science)

Vidhya pratishthan college, Baramati

07/2013 - 10/2017

Baramati

Grade
- percentage - 60.52%

SKILLS

C/C++: System programming, data structures, algorithms, file handling, recursion, dynamic programming, multiprocessing, multithreading, mutex, semaphore, race conditions, socket programming, Memory management, STL, OOPS, WIN32API, IPC, cTags, gdb.

Additional skills : design patterns, services/daemons & cron jobs, troubleshooting, issue reproduction, logging/debugging(gdb), makefiles, curl, system design, product architecture, code & data security.

Database: sql[postgres, SQLite, db2], NoSQL[mongodb].

Scripting : perl, linux/bash, python

DEV-OPS : git & GitHub, docker, aws.
