

Ritik Bansal

B.Tech. (Electrical Engineering)
IIT Kanpur

in : ritikb

☎ : +91-9521717528

✉ : imritik36@gmail.com

Academic Qualifications

Year	Degree/Certificate	Institute	CPI/%
2019 - 2023	B.Tech	Indian Institute of Technology, Kanpur	7.9/10
2018	BSER(XII)	Children Education Public School	82.00%
2016	CBSE(X)	Guru Harkrishan Sr Sec Public School	10.0/10.0

Achievements

- Secured **AIR 757** in JEE Advanced 2019(2.45 lakh aspirants) and **AIR 1127** in JEE Mains 2019(1.5million aspirants)
- Qualified the prestigious **LPUNest Scholarship Exam 2019**, and won **INR 2 Lakh** scholarship
- Specialist** on **Codeforces** with Maximum Rating: **1532**. Handle: bansal_ritik
- Secured **1176th** rank globally in **Google Kickstart** Round G 2022 among 15,000+ participants
- Active participant on **Codechef** with a Maximum Rating **1811**. Handle: ritik_b
- Achieved **131th** rank in **FizzBuzz** in I.Fest(Annual Tech Fest of DA-IICT) 2021 among 9,000+ participants
- Bagged **127th** rank globally in **Infinity 2021** by IIIT Pune among 8,000+ participants
- Secured **88th** rank globally in **Codechef Starters 31** among 15,000+ participants
- Achieved **828th** rank globally in **Codeforces Round 840** among 20,000+ participants

Work Experience

- Quant Developer : Greenland Investment Management**, Mumbai (Jul'23- Present)
Mentor : *Goldy Goyal*
 - Worked on fully automated mid frequency arbitrage strategies specializing in the commodities market
 - Created completely automated data pipelines for post trade reports to track the performance of the portfolio
 - Built a very generic framework for building and deploying fully automated strategies with minimal code changes.
- Intern : Tredence**, Bangalore (Mar'23- Jun'23)
Mentor : *Santosh Sawant*
 - Created UI components for **Knowledge Management System** using ReactJS and AntDesign
 - Automated the project structure creation with customised template using **CookieCutter**
 - Built user-friendly web interface templates for the machine learning models using Gradio
- SDE Intern : Amazon**, Gurugram (May'22- Jul'22)
Mentor : *Rahul Bisht (SDE 2 at Amazon Bangalore)*
 - Worked under the **Mast Tech** team to assist development of seller related software and services
 - Resolved issues in the existing **production features** in seller central that supports **100K+ users worldwide**
 - Developed a custom dialog box **component** support for Aether Internal UI package using **React**

Key Projects

- Dijkstra Visualizer** *Self Project*  (May'21-Jun'21)
 - Created a frontend application using React to visualize how **Dijkstra's Algorithm** works on a 2D maze
 - Gives shortest path between start and end point with **custom blockage** in path decided by user
- Algorithms Based On Maths** *Under Stamatics Society — IIT Kanpur* (Apr'21-May'21)
 - Studied techniques like **Hashing**, **Sieve of Eratosthenes** and Recursive Relations
 - Implemented algorithms using **C++** to solve various **Competitive Programming problems**
 - Studied some programming techniques like divide and conquer, greedy algorithms, **dynamic programming**

Technical Skills

- C, C++, HTML, CSS, JavaScript, ReactJS and Bootstrap
