With 2 years of IT experience, I specialize in DevOps, AWS, Configuration Management, Containerization, and CI/CD cloud infrastructure. My experience with version control systems and cloud technologies allows me to streamline processes and improve efficiency. I am actively seeking new opportunities to further develop my skills and contribute to innovative projects.

 TECHNICAL SKILLS

Ansible • CI/CD • AWS • DevOps • Linux • Bash Script • Git • Docker • Jenkins • Kubernetes • Helm • EFK • Basic understanding of Terraform • Basic knowledge of Maven • basic knowledge of Prometheus • basic knowledge of Grafana

 PROFESSIONAL EXPERIENCE

Mar 2022 – Feb 2024
Bangalore, India

OPT IT Technologies
Junior SysOps Engineer

- Utilized DevOps tools such as Jenkins, Git, Ansible, Docker, Kubernetes to support deployment processes.
- Worked with cloud platforms Microsoft Azure and AWS, setting up project-specific infrastructure.
- Installed and configured Sunbird instances across various cloud environments for different adopters.
- Automated routine tasks using Linux shell scripts to enhance operational efficiency.
- Debugged and resolved infrastructure & configuration issues in development & production environments.
- Monitored infrastructure performance and health using Prometheus and Grafana for proactive issue controls.
- Implemented security best practices for cloud infrastructure, including IAM policies and access controls.
- Collaborated with Development and product teams to support continuous integration and continuous deployment (CI/CD)

Dec 2021 – Feb 2022
Bengaluru, India

Someshwara Software Pvt Ltd
DevOps Intern

- Managed AWS resources, S3 buckets, IAM access, RDS creation, for a secure & reliable infrastructure.
- Created and registered GitLab runners to optimize CI/CD processes and improve project workflows.
- Deployed web applications in AWS Elastic Beanstalk and hosted static websites using AWS S3.
