Mumbai, Maharashtra

SUMMARY

Mainframe Developer with 3+ years of experience in the banking domain, specializing in COBOL, JCL, CICS, DB2, and VSAM. Adept at designing, developing, and maintaining mainframe applications, ensuring optimal performance and compliance with banking regulations. Proven track record in system enhancement and resolving complex system issues, contributing to seamless banking operations. Seeking to leverage technical expertise to contribute to large-scale financial projects at a leading organization.

EDUCATION

Mumbai University

Bachelor of Mechanical Engineering
2017-2021

TECHNICAL SKILLS

- Languages: COBOL, JCL, Java
- Databases: DB2, VSAM
- Mainframe Technologies: CICS, TSO/ISPF, Z/OS
- Tools: ChangeMan
- Other Skills: SDLC methodologies, Performance Tuning, Debugging, Batch Processing

CERTIFICATIONS

- MICROSOFT AZURE FUNDAMENTALS (AZ-900) CERTIFIED
- AGILE SOFTWARE DEVELOPMENT - UNIVERSITY OF MINNESOTA

LANGUAGES:

- ENGLISH
- MARATHI
- HINDI

PROFESSIONAL EXPERIENCE

Sr. Software Engineer

Capgemini | Navi-Mumbai | Oct 2021 - Present

- Collaborate with cross-functional teams in banking operations to develop and maintain critical mainframe applications.
- Lead projects that optimize banking transaction processes, reducing processing time by 15%.
- Write and optimize complex COBOL and JCL code from scratch for financial transactions, ensuring compliance with industry standards.
- Troubleshoot and resolve system outages and production issues, minimizing downtime by 25%.
- Conduct performance tuning and code reviews to maintain high-quality deliverables.
- Work with DB2 databases to manage large-scale financial data, ensuring data integrity and security.
- Developed new features and maintained mainframe applications for the bank's loan processing system.
- Coordinated with banking stakeholders to understand business requirements and translate them into technical solutions.
- Implemented COBOL and JCL programs to automate batch processes, reducing manual intervention by 30%.

Key Achievements:

- Reduced application processing time by 15% through optimizing mainframe batch jobs.
- Successfully migrated legacy modules from mainframe to a Java-based architecture, improving system flexibility and scalability.

PERSONAL ATTRIBUTE

- Strong problem-solving skills with a focus on timely and accurate delivery.
- Excellent communication and collaboration with cross-functional teams.
- Adaptability to evolving technologies and banking regulations.
