

SANSKRUTI PUNDE

PERSONAL DETAILS: Pune, India | P: +91 7420854679 | sanskrutipunde501@gmail.com | [LinkedIn](#) | [GitHub](#) | [Hashnode](#) | [LeetCode](#)

EXPERIENCE:

Software Engineer

McLarenSS

August 23 - Present

- Developed a comprehensive rule engine microservice, creating customizable payment workflows that increased user engagement by 20%, leading to a noticeable boost in customer satisfaction ratings across the platform.
- Writing smart contracts - ERC20 and developing seamless banking solutions with peers.
- Integrate payment partners such as PayPal and Stripe.
- Tech Stack: **Upgradable smart contracts, Kafka**, Java, event-driven microservices, webhooks, database schema optimization, Hardhat, Azure (DevOps, Key Vault, Event Hub), RabbitMQ, Redis, schedulers, version control.

Software Development Intern

McLarenSS

June 2022- July 2023

- Build REST APIs and design the subscription module workflow.
- Implement webhooks for deposit transactions and developing smart contracts.
- Tech Stack - **TypeScript, NestJS, PostgreSQL, RabbitMQ, HardHat, Solidity, Git**

Developer Advocate

Ethereum Push Notification Service

March 2022- June 2022

- Communicating with clients and understanding their requirements to deliver the best integration experience to the user.
- Creating channels (a way to send notifications to their users) for different clients out there.
- Tech Stack - **TypeScript, MetaMask, NodeJS, ExpressJS, EPNS SDK, GraphQL, MongoDB, Docker**

Blockchain Developer Intern

EnterProf

Dec 2021- March 2022

- Worked on building a **NFT** marketplace for buying and selling NFTs.
- Developed and deployed smart contracts using **Solidity**.
- Worked on developing the **Profile** section of user- categorising user's NFTs: **Minted, Unminted, Listed** and providing options to **List, Mint, Sell those NFTs**.
- Tech Stack - **Figma, ExpressJS, MongoDB, Sass, Polygon, Ethereum, Truffle, Ganache** and Web3.js.

PROJECTS:

DocMan - way to manage your documents

- Developed a Web based document management system built for Smart India Hackathon which allows you to create, manage, track documents.
- Designed the secure system architecture for the platform over Hyperledger fabric.
- Tech Stack: Hyperledger Fabric, IPFS, ExpressJS, Authentication and Authorization.

SKILLS

Technical Skills

- Programming Languages: **JavaScript, Go, Java, C++, Solidity, TypeScript**
- Operating systems and virtual machines: Windows, **Ubuntu**, RedHat, VMware, VirtualBox
- Databases and Designing Tools: **PostgreSQL**, Oracle, **MySQL, MongoDB, Figma**
- Frameworks and Libraries, Models: **Git, GitHub**, ReactJS, **ExpressJS, NodeJS**, XP, **Selenium, Azure DevOps**

Management Skills: **Team Management**, Time Management, Project Management

Languages: **English**, Hindi, Marathi, French (Beginner)

EDUCATION

Sinhgad College of Engineering, Pune

December 2020 – May 2023

Bachelors in Engineering, Information Technology, CGPA **9.56**

Government Polytechnic, Pune

July 2017 – December 2020

Diploma, Computer Engineering, Percentage **91.73%**

EXTRA CURRICULAR ACTIVITIES / ACHIEVEMENTS

- Received Developer of the Month Award for 3 times.
- Smart India Hackathon [finalist 2022](#)
- EthIndia22 and EthIndia23 winner (partner prize)
- Hack club SCOE **lead** (By the students for the students, helping my fellow mates to improve skills, getting started with coding).
