Education

- **National Institute of Technology Patna** CGPA: 8.2
Bachelor of Technology - Electronics & Communication Jul 2024
- **St Joseph's Public School** Percentage: 83%
CBSE, India Jan 2019

Experience

- **o9 Solutions** Bengaluru
Application Developer Jan 2024 - Present
 - Executed complex queries with IBPL to extract and analyze over 1 million data points, resulting in a 10% acceleration in data retrieval and a 27% enhancement in accuracy.
 - Designed and optimized 5+ Python plugins for real-time data analytics and reporting, facilitating improved cross-functional collaboration among 10+ team members.
 - Developed interactive action buttons using JavaScript, significantly enhancing user experience and receiving positive feedback from over 300 active users weekly.

Personal Projects

- **CodePulse:** Web app displaying Leetcode and GitHub statistics with enhanced features Link: [View Project](#)
 - Developed a web app displaying real-time Leetcode statistics using the **Leetcode API**, allowing users to search for and view their personal data.
 - Integrated **GitHub API** to display total repositories, followers, and other statistics, enhancing user engagement.
 - Designed interactive sections showcasing personal projects and resources used for interview preparation.
 - Optimized the page performance with hooks such as **useEffect**, **useRef**, **useParams**, and **useCallback**.
 - Styled the application using **Tailwind CSS** to ensure a responsive and visually appealing user interface.
- **Multi-Page Country Details Platform:** Comprehensive country information and navigation tool Link: [View Project](#)
 - Developed a multi-page web application fetching real-time data for 250+ countries using the **REST Countries API**.
 - Provided detailed country information including **population**, **region**, **currency**, **top-level domains**, and navigation to **bordering countries**.
 - Implemented **dark and light mode** toggle for user customization and better accessibility.
 - Added a **filter feature** allowing users to sort countries by region, enhancing navigation and usability.
 - Designed a responsive interface using **CSS media queries** to provide a seamless experience across devices.

Achievements

- **Leetcode** 🏆:
 - : Successfully solved **1200+** problems, achieving a position in the top **2%** globally, with a **2000+** rating holding Knight Batch.
- **InterviewBit** 🏆:
 - : Ranked **1** at the Institute and attained Master Level 8.
- **CodeChef** 🏆:
 - : Achieved a **3-Star** rating with a score of **1632**, ranking **243** globally in Starters 140 Division 3 (Rated), showcasing competitive programming skills.
- **Codeforces** 🏆:
 - : Progressed to the Pupil level with a rating of **1202**, reflecting continuous improvement in competitive programming.
- **GeeksforGeeks** 🏆:
 - : Ranked among the top **2.75%** of 22,365 users, exemplifying high-level problem-solving skills.
 - : Earned a 4-star rating with a score of 1894.

SKILLS

- **Programming Languages:** C++, JavaScript, SQL, Python
- **Web Development:** HTML5, CSS, RESTful APIs, Javascript
- **Tools & Technologies:** Git, GitHub, VsCode
- **Soft Skills:** Leadership, Event Management, Public Speaking
- **Areas of Interest:** OOPS, Operating Systems, Database Management Systems, Computer Networks
