
SHAMINI SARAVANAN

Bangalore, India | 9745604037 | shamzkarthi@gmail.com

Summary

Dynamic React Native developer with over 3.5 years of experience crafting high-performance, cross-platform mobile apps for iOS and Android. Expert in delivering scalable, user-centric solutions while boosting app performance and collaborating seamlessly across teams. Ready to elevate impact in a senior role with a results-driven mindset and a passion for innovation.

Experience

Role: Engineer, Development

06/2023 to Current

Aptean Company

Bangalore India

- **Client Issue Resolution:** Replicated client issues, raised work items, and resolved an average of 4 issues per week, addressing 130+ incidents. Delivered hotfixes with a perfect success rate and no rollbacks.
- **Memory Optimization:** Identified and addressed memory-related logouts, improving the app's memory usage by 30%. Leveraged techniques like React.memo and useCallback to optimize component rendering, significantly enhancing app stability and user retention.
- **Crash Mitigation:** Decreased crash rates by 45% across all clients through the deployment of key hotfixes, leading to improved performance and a more reliable app experience.
- **Proactive Collaboration & Leadership:** Engaged with support, SRE, and product owners to transform client feedback into technical improvements. Led discussions to align technical feasibility with business goals, consistently proposing solutions to enhance product quality and performance.
- **QA Support:** Took a hands-on approach in conducting compatibility testing, ensuring timely releases and meeting client deadlines while continuously seeking ways to improve product stability and performance.

Role: Associate Engineer, Development

06/2021 to 11/2021

Aptean Company

Bangalore India

- **Geofencing & Location Tracking:** Led the implementation of geofencing and background location tracking with Expo libraries, resolving 20+ app crashes and reducing crash incidents by 40% through optimized task management.
Proof of Delivery Features: Developed key delivery features like image capture, signature collection, and dynamic form submissions, significantly reducing submission errors through streamlined validation.
- **State Management & Offline Mode:** Utilized Redux for state management and AsyncStorage for offline support, significantly reducing login times for drivers in low-connectivity areas.
- **Crash Debugging:** Fixed 90% of crashes during beta testing related to background services and memory management, significantly improving app stability pre-launch.
- **Performance Optimisation:** Achieved 25% reduction in screen load times, boosting efficiency
- **App Store Compliance:** Oversaw iOS submission, addressing and resolving 4 rejection issues via permission refactoring
- **CI/CD Pipeline Development:** Partnered with DevOps for CI/CD pipeline setup using YAML scripts

Skills

- | | |
|---------------------|--------------------|
| • React Native | • Expo |
| • JavaScript (ES6+) | • AsyncStorage |
| • TypeScript | • React Navigation |
| • XML | • Axios |
| • CSS | • React Query |
| • HTML5 | • SQLite |
| • Node.js | • Chrome DevTools |

- Android Studio
- Xcode
- Visual Studio Code
- Redux
- Redux-Saga/Thunk
- Git
- Azure
- TestFlight
- App Center

Awards

- **GEM Award**, By Manager - Bhaskar Thigaraj, Aptean Company
- **Star-Performer**, By Senior Manager - Soumya Mukesh, Aptean Company
- **Key Contributor**, By Product Owner - Bharath Chandra, Aptean Company
- **Runner Up - SLAC Honeywell Hackathon**, By Honeywell, Honeywell Company
