 - Configuring and troubleshooting Cisco routers (1841,7200, ASR 1002,1006), switches(4509,6513) , Nexus(9504, 7010, 5k, 9300 series), UCS manager
 - Knowledge on Check point, ASA, FMC, FTD and Bluecoat.
 - Knowledge in Routing protocols such as Static, RIP, EIGRP, OSPF and BGP, IPSEC, SSL VPN.
 - Knowledge in Switching Protocols: STP, VLAN, VTP,HSRP, Ether-Channel,
 - Implemented traffic filters using Standard access-lists, Route Maps, MPLS QOS.

Devices and Tools experienced.

- **Automation Tools:** COAX, DCNM, HPNA, EM7, Cisco-Coral
- **Monitoring Tools:** Spectrum, Cisco Prime, Cisco Works, and CAPAM, PRTG,
- **Nexus Switches:** 9k, 5k, 7k, 2k, and ACI – 9504, 9318, 9300 Nexus family
- **Catalyst Switches:** 4000 series, 6500, and 3750 POE, 2960x, 9000
- **Routers:** ASR1000x ISR , 9481, 3800 model
- **Firewall:** ASA, FTD, FMC, FTD
- **Wireless Devices:** 5508 Cisco controller, Access Points. ARUBA controllers and AP
- **Ticketing Tools:** Remedy, CA-Service-Desk, Helpline, Service-Now, Connectwise.

Education Qualification

- 2015-2018 BCA – Padma collage Bangalore – Bangalore University **(82%)**
- 2012 Diploma in Computer Engineering – BVVS Polytechnic Bagalkot Board of DTE, Karnataka. **(74%)**.
- 2009 - SSLC. **(86.54%)**.
-

Professional Certification.

- Cisco Certified Network Associates (CCNA).
- Cisco Certified Network Professional (CCNP). CISCO ID: CSC012955538
- ITIL Training certification

Professional Experience

Presidio pvt ltd

Designation: - Sr Network engineer

Period: - October 2022 to Till date

Job Profile: -Technical lead

- Working on Network migrations/implementations for Presidio worldwide customers.
- Legacy DC ->ACI DataCenter devices migration, DataCenter operations
- Working remotely and supporting the presidio customers across the globe
- Network design participations with customers, performing HLD,LLD
- Leading L2, L1 DC network operations team, Team-Size-6 ,12
- Familiar with network security -FTD, ASA, FMC, and FortiGate 3000D devices
- Network Security- ASA, FTD, FMC devcies migrations, VPN Setup/Failover activities
- IPSEC VPN , Anyconnect VPN upgrade/Migrations/Change activities
- Supporting to the customers on– Security and Datacentre services.
- Monitoring DC ACI infrastructure and timely response to network outages. Handled high priority incident response and emergency break-fix change implementation to mitigate the outages.
- Worked for individual projects- Cisco Datacentre Nexus migrations, IOS patching
- Involving the client meetings- leading in front of the escalations matrix.
- Customer CAB call, Change/Release, Incident handling.
- Knowledge on Vm, Vcenter, UCS Manager, fabric connectivity.
- Familiar with Cisco ACI, Spine-Leaf Policy deployment.
- NXOS & IOS upgrade for cisco switches and routers.
- Familiar with VDC, VPC, ACI Fabric Nexus technologies.
- Documentations- SOP/MOP, Change/Release , KT documents

Professional Experience

Cisco System - Capgemini

Designation: - Technical consulting engineer

Period: - April 19th 2021 to Oct 2022

Job Profile: -Senior Network engineer, Infra T2.

- Supporting Cisco Data centre across globe Handling on Incidents and troubleshooting and supporting Datacentre issues and implementations.
- Active participant in DC Migrations, Implementations.
- ASA firewall route implementations, traffic filtering, Port opening at end to end requests.
- Monitoring DC ACI infrastructure and timely response to network outages. Handled high priority incident response and emergency break-fix change implementation to mitigate the outages.
- Responsible for writing method of procedure (MOP) documents based on new design requirements or as part of ACI network troubleshooting by implementing normal, emergency, proactive, reactive, and planned changes in the environments for various customers.
- Working on ACI environment and managing DC operations.
- Direct interaction with customers and attending Customer call/auditing projects.
- Responsible for all changes in routing and switching related to Data centre.
- Preparing POA & Roll Back plan for new activities and changes.
- Preparing SOP and other process related documents to streamline the process.
- Part of transition team of data center.
- Knowledge on Vm, Vcenter, UCS Manager, fabric connectivity.
- URL filtering on Checkpoint firewall.

- Familiar with Cisco ACI, Spine-Leaf Policy deployment.
- NXOS & IOS upgrade for cisco switches and routers.
- Familiar with VDC, VPC, ACI Fabric Nexus technologies.
- Troubleshooting and incident handling for all Level-2 issues and involving with TAC.

Orange Business services.

Designation: - Sr .Technical consultant (Network)

Period: - October 2016 to March 2014

Job Profile: -Senior Network engineer, Lead for L1 Team.

- Implementing and supporting Cisco Data Center Operations and DC DRILL activities.
- Active participant in DC Migrations, Implementations.
- ASA firewall rule implementations, traffic filtering, Port opening at end to end requests.
- SSL, IPSEC VPN, ACL, NAT.
- URL filtering on Checkpoint firewall.
- Familiar with Cisco ACI, Spine-Leaf Policy deployment.
- NXOS & IOS upgrade for cisco switches and routers.
- Familiar with VDC, VPC, OTV, ACI Fabric Nexus technologies.
- Troubleshooting and incident handling for all Level-2 issues and involving with TAC.
- Part of Interview panel team to conduct Walk-in drive, Campus drives for fresher's.
- Working on Nexus 7K, 9k, Cisco 7613 and 6500 series.
