FULL STACK DEVELOPER
I worked as an intern at Aspire Systems Chennai. I developed a project TASK MANAGEMENT SYSTEM under the .Net framework.

Projects

- **GCT ERP PORTAL**
I enrolled in my college portal development team and developed three modules such as Internals module, Course Outcome Attainment module and Feedback module by using MERN stack. The portal is interoperable and scalable for the users.
- **Task Management System**
The system is used to monitor the status of the project. It was developed by .NET framework. The entire system is developed by me. The system can send alerts to the project members. The project manager may have numerous projects and all are maintained uniquely. The entire system is based MVC architecture.
- **Patient Health Management System**
It is a simple application which is used for maintaining the database of a hospital. This project uses Sql Server as backend and .NET framework as front end. Doctors can easily maintain the records of the patient and patients can check availability of their doctors. This application is user-friendly and flexible.
