Summary

IT Professional with 3+ years of experience in developing .Net Angular applications with a strong proficiency in **Angular, TypeScript, JavaScript, HTML, CSS, C#, .NET, and SQL**. Effective communicator with strong development skills that lead to increased client satisfaction and successful project outcomes.

Skills

- **Programming languages:** C#, HTML/CSS, JavaScript, Typescript, SQL, RDBMS
- **Frameworks:** Angular, .Net Framework, .NET MVC, .NET Core, Web API, Bootstrap
- **Development Practices and Tools:** Visual studio Code, Visual studio IDE, Postman, SQL Sever

Work Experience

Capgemini | Pune | Software Developer

June-2021 - Present

- Proficiently engaged in the development of **Angular .Net-based applications**, utilizing Angular, JavaScript, .Net, TypeScript, HTML, Bootstrap, SQL, and CSS.
- Developed REST API functionality for an **ASP.NET Core application**, ensuring efficient data exchange and robust backend operations.
- Used **subjects and behavioural subjects** to handle state changes and facilitate communication between components and developed structural directives and attribute directives to enhance UI interactivity.
- Established communication with **RESTful APIs** to retrieve and send data.
- Implemented secure user **authentication/authorization** using **JWT tokens**.
- Used Angular's HTTP Client module for making **HTTP requests**, handling responses, and managing errors.
- Used **RxJS observables and operators** for managing asynchronous data streams and event handling.
- Implemented operators like map, filter, to manipulate and process data efficiently. Designed and implemented custom **Angular pipes** to format and transform data within templates.
- Implemented **robust error handling** and user feedback mechanisms to manage **API failures** and connectivity issues, improving the overall reliability of the application.
- Used **SQL**: Performed data validation and updates by querying tables to check for the presence of records and modifying existing data based on specific conditions.
- Successfully deployed code through **CI/CD pipelines** using **Azure Repositories**, ensuring smooth and automated delivery of software updates.

Internship

1. Hermitcrabs | Bangalore, India

Jul 2019-Sep 2019

- Developed and implemented web solutions, gaining hands-on experience in front-end technologies like HTML and CSS.

2. Capgemini | Bangalore, India

Jan 2021-Apr 2021

- Completed Net Core training and developed a .Net Core full-stack web application during my Capgemini internship while adhering to agile practices and meeting project deadlines.

Project

Scottish Water Project (Scotland)

Scottish Water is a statutory corporation that provides **water and sewerage services across Scotland**. Every day we deliver **1.51 billion litres** of clear, fresh drinking water and remove **1.07 billion litres of wastewater** which we treat, recover resources from and return safely to the environment.

- The Applications supports developers, builders, and architects in managing new development projects that require **water and wastewater services**. Helps user submit new water and wastewater connections for domestic and industrial usage and even helps in tracking customer inquiries, complaints, and service orders.
- Developed RESTful APIs using **ASP.NET Core** to handle data processing, manage customer interactions, and used **Angular** to create responsive and user-friendly interfaces.

Education

Reva University, Bangalore

2017 – 2021

Bachelor of Technology (**BTech**), Electronics and Communication Engineering | **9.6 CGPA**

Certifications

- Azure Fundamentals Certification (**Azure-900**) - Microsoft
- Google Cloud Practitioner Certification (**GCP**) - Google
