

SAMARTH G JOSHI

PowerBI Developer | Data Analysis | Visual Design

I'm an experienced Power BI developer with around 3 years of experience in creating interactive and insightful dashboards. I have worked with both small businesses and large organizations, helping them transform raw data into meaningful visualizations and actionable insights. My expertise includes data cleaning, modeling, and visualization, and I have a proven track record of delivering high-quality, user-friendly reports that drive data-driven decision-making.

WORK EXPERIENCE

PowerBI Developer I Augmented Ally

10/2023 - Present

Remote

Achievements/Tasks

- **Tools:** Power BI, SQL Server, RLS, Dataflows, PBI Report Builder
- **Developed and optimized Power BI reports** across various projects, including Billing, Inspection, and Customer Satisfaction, improving data accessibility and decision-making by 30%. Leveraged Dataflows for efficient data preparation, reducing processing time by 35% and enhancing the overall data modeling process.
- **Implemented advanced data security and validation measures**, including Row-Level Security (RLS) and comprehensive data validation

Data Specialist Futurese Technologies

03/2023 - 09/2023

Bangalore, India

Achievements/Tasks

- **Tools:** Python, SQL, Big Data, ADF, ADLS, Azure SQL Database, Azure Databricks, Azure Synapse, Power BI
- **Focused on data analysis in the gaming industry** using Azure Databricks to derive insights from large datasets and Azure Synapse for data cleaning, contributing to market insights and game development strategies.
- **Led end-to-end project development using Azure tools**, including creating data pipelines with Azure Data Factory and building Power BI dashboards to visualize analysis results, effectively communicating findings and supporting data-driven decision-making.

C1 Software Engineer LTIMindtree

08/2021 - 01/2023

Bangalore, India

Achievements/Tasks

- **Tools:** Power BI, SQL Server, Power BI Service, KustoDB
- **Developed Power BI dashboards and reports** to enhance decision-making, leveraging expertise in Power BI, SQL Server, and Power BI Service for impactful visualizations.
- **Served as a Power BI Tech Engineer**, resolving 500+ tickets related to Power BI tools with a 99.2% resolution rate and training junior support specialists.

EDUCATION

Bachelor of Computer Science & Engineering KLS VBIT, Haliyal

2018 - 2021

Dharwad, Karnataka, India

SKILLS

Power BI Desktop

Power BI Service

DAX (Data Analysis Expressions)

SQL Server

Data Modeling

Dataflows

Paginated Reports

Data Visualization

Data Validation

Python

Azure Services

PERSONAL PROJECTS

WFOODS

- Wfoods is a retail client operating in the US having lots of outlets in US selling foods and non-food items requirement was to manage effectively the revenue generating from various outlets across various categories.
- Imported data from excel and built sample dashboard as per requirements specified.
- Used KPI, Table, TreeMap and Other visuals for data analysis.
- Imported data from POSTGRE SQL using import mode and Intergrate data with complete data present in database(SIT), & published dashboard to PowerBI Service

ACHIEVEMENTS

Mindtree Spot-On, LTIMindtree

This recognition is a testament to the hard work and dedication that I have put into my role at Mindtree- 2021
