EDUCATION

ISBM (SPPU) Pune, Maharashtra .

2020 – 2024

(8.53/10)

- Bachelor of Engineering degree in Artificial intelligence and Data Science.
- Relevant Coursework: Statistics, IOT, Algebra, Computer Architecture, Artificial Neural Network, UI/UX, Cloud Computing.

EXPERIENCE

Data Lumina

Pune, Maharashtra

Data Analyst Intern

Feb 2024 – Mar 2024

- Developed predictive analytics models to high quality data labelling services to help data tokenization.
- Automated data analysis workflows, increasing efficiency and accuracy in reporting.

AI Variant

Remote, India

Data Science Intern

Aug 2023 – Feb 2024

- Developed bankruptcy prediction models involves several variables each serving a specific purpose in prediction to bank bankruptcy.
- Collaborated with global teams to integrate AI solutions into platforms, enhancing decision-making capabilities.

Code Clause

Pune, Maharashtra

Data science Intern

April 2023 – May 2023

- Designed and implemented machine learning models to predict customer behavior, enhancing personalized services.
- Conducted in-depth data analysis to support risk management, improving decision-making processes.

Outlier.AI

Remote, India

AI Model Trainer

Oct 2024 – Current

- AI systems to accurately solve mathematical problems. My role involves data annotation, quality control, and collaborating with developers to enhance AI performance.
- Improved AI accuracy in solving math problems to a 95% success rate. - Streamlined AI learning processes, reducing model errors.
- Developed a Python-based desktop assistant for voice-activated tasks like playing music and videos.

PROJECTS

Image Caption and Hashtag Generator using an Artificial Intelligence:

- We implement and optimized long short term memory (LSTM) neural network model to recognizing the context of an image it with relevant captions using deep neural network .Utilized advanced algorithms to improve detection accuracy.
- Processed and analyzed large datasets to train and validate the model, ensuring high reliability.

Artificial Intelligence Based Hand Gesture:

- Gesture recognition is technology that uses sensors to read and interpret hand moments as commands.
- Utilized technologies such as computer vision and reinforcement learning algorithms to enable swarm intelligence and coordination. In the automotive industry, the capability allows drivers and passengers to interact with the vehicle.

SKILLS

Language and Libraries: Python, SQL, R basic, Pandas, Pytorch, Numpy, Tensorflow, OpenCV, Matplotlib, Sklearn, TensorFlow.

Operating System: Windows, Linux, Unix.

Software: Jira, Excel, Word, Zoom, Teams, Slack,

Data Visualization/ Database: Tableau, Microsoft Power-Bi./ AWS, SQL server, Oracle

LEADERSHIP

FORZA 2023 & ORION 2023 & 2024

Pune, Maharashtra

Security and Disciplinary Coordinator, Member of Core committee & Finance and Management

July-2023, Mar 2023 , Feb2024

- Organized a 4 day event of 2,000 students with activities geared to demonstrate their creativity by pondering the unique challenges and events. Linked 3000 freshmen to upperclassmen with similar career objectives while managing the events.
- Arranged a 8 day long cultural fest event of 1000+ students with activities and competitions geared towards a ritual celebrating joy, talent and passion for cultural practices
