EDUCATION

- **B.Tech. (Mechanical Engineering)** from Vignan University in 2016

CERTIFICATION

- ISTQB Foundation Level certified

CORE COMPETENCIES

- Software Testing (Manual & Automation) Lifecycle
- Quality Assurance & Control
- Testing Strategy Documentation/ Test Framework Development
- Bug Lifecycle Management
- Agile & Scrum Methodologies
- Software Development Lifecycle
- Client Relationship Management
- Stakeholder Engagement

TRAINING

- 5 months of rigorous professional training in Java, Manual Testing, and Automation Testing at TalentSprint for Technology Training, Hyderabad

PROFILE SUMMARY

- Offering over 5-year of experience in Software Testing, with a focus on both manual and automation testing
- Skilled in mobile testing (app and web) and experienced in cross-browser testing
- Knowledgeable in programming languages like Java and SQL, with an understanding of Agile software development lifecycle (SCRUM)
- Excellent multitasking and prioritization capabilities, ensuring timely completion of tasks
- Familiarity with documentation of test cases and expertise in using tools like JIRA for test case execution and bug tracking; comprehensive knowledge in SQL and experienced in using build management tools like MAVEN
- Strong knowledge and understanding of the Agile process, including Sprint planning meetings, daily standup meetings, and Sprint Retrospective meetings
- Proven capability in automating tests, generating reports, and effectively communicating with stakeholders to ensure product quality
- Proficient in designing and implementing robust test automation frameworks using Java-Selenium, TestNG, and API Testing.; successfully reduced test execution time and improved overall test coverage
- Achieved reduction in production incidents by implementing comprehensive regression testing strategies and conducting thorough root cause analysis
- Developed and executed test cases for mobile testing, ensuring seamless user experience across multiple devices and platforms
- Leveraged expertise in Agile methodologies by actively participating in daily standup meetings, sprint planning, and sprint retrospective meetings, resulting in improved collaboration and faster delivery of high-quality software

WORK EXPERIENCE

May'19-Till Date, Test Engineer, Entain (Ivy Comptech), Hyderabad Key

Result Areas:

- Successfully integrating third-party casino games (Slots, Jackpot Slots, Roulette, Live games) into Entain brands
- Debugging vendor game issues using SSH Tools; working on Content management tools like Sitecore
- Validating jackpot liquidity and game feed in the lobby through the utilization of the Postman tool
- Offering assistance for migration and B2B processes
- Troubleshooting and resolving staging and production issues and incidents
- Streamlining game automation processes and generating detailed reports for senior management
- Executing tests on diverse features of the agile development process
- Managing and executing all manual and automating tests on systems
- Fostering effective communication with Software Architects, Developers, and Product Owners to uphold product quality
- Addressing intricate gameplay issues and uphold quality standards within the facility

SOFT SKILLS

- Change Agent
- Collaborator
- Analytical
- Problem Solving
- Team-Oriented

PERSONAL DETAILS

Date of Birth: 21st September 1992

Languages Known: English, Hindi & Telugu

Address: Flat no: G2, Sai Datta Residency, Nizampet, Hyderabad, Telangana, 500090

Highlights:

- Developed an automation tool to automate slot games, covering all required test cases and generated accurate outputs
- Successfully automated both desktop and mobile versions of the same feature, improving efficiency and productivity
- Streamlined the game configuration process by collaborating with 3rd party vendors, resulting in reduction in configuration time and improved accuracy
- Implemented a comprehensive cross-browser testing strategy, ensured consistent functionality and user experience across all major browsers
- Consistently delivered high-quality software by effectively managing and implementing manual and automated tests, resolving complex gameplay issues, and maintaining a strong focus on product quality and customer satisfaction
- Received appreciation from Product Managers and Engineering Managers for automating 1000+ games
