CAREER OBJECTIVE

As a highly motivated and detail-oriented software engineer, my goal is to leverage my strong foundation in computer science and programming to contribute innovative solutions to challenging technical problems. With a passion for creating efficient and user-friendly software, I aim to collaborate with diverse teams to design, develop, and deploy cutting-edge applications that make a positive impact on user's lives. Through continuous learning and staying up-to-date with emerging technologies.

SUMMARY OF QUALIFICATIONS

- Having 8+ years of Information Technology experience in the field of software development of web based applications developed on PHP using Laravel, Symfony2.8 and CodeIgniter and MySQL Server as the back end database.
- Has worked on Oil & Gas software, E-Commerce, HR Payroll and Inventory control system with Symfony2.8, Laravel & MYSQL Server as the technological base.
- Also work on RESTful api and MicroServices.
- Working knowledge of XAMPP and Version Control Tool.
- Good knowledge of OOPS, SDLC concepts and Agile development methodologies.
- Good Working knowledge in the Database MySQL and MongoDB Server.
- Open to learn new technological advancements and frameworks.

TECHNICAL EXPERIENCE

LANGUAGES	PHP, TypeScript
FRAMEWORKS	Laravel, Symfony2.8, Codeigniter
MICROSERVICES API	Lumen, Core PHP, NodeJS (Beginner)
CMS	Wordpress
DESIGN	HTML, CSS
DATABASE	MySQL, MongoDB
FRONT END	ReactJS(Beginner), JavaScript, Ajax
WEB SERVER	Apache, Nginx
OPERATING SYSTEM	Linux, Windows
CONFIGURATION MGMT	GIT, Swagger
TOOL	Jira

FUNCTIONAL EXPERIENCE

- Oil & Gas Inspection Application
- Linux-based virtual NAS appliance(VM)
- Inventory control system
- E-commerce
- HR payroll

PROFESSIONAL EXPERIENCE

Duration: Aug 2021 - March 2024

Company: Asset Integrity Engineering, Sharjah, UAE

Designation: Sr. Software Engineer

<https://www.assetintegrityengineering.com>

Duration: Nov 2019 - July 2021

Company: Softuvo Solutions Pvt Ltd, India

Designation: Sr. Software Engineer

<https://www.softuvo.com>

Duration: March 2017 – Dec 2018

Company: SRM Techsol Pvt. Ltd (CMMI Level-3), India

Designation: Software Engineer

<https://www.stpl.biz>

Duration: Sept 2016 – Feb 2017

Company: Woolance, Canada (Remote)

Designation: Software Engineer

<https://www.woolance.com>

Duration: May 2015 – Aug 2016

Company: TWA - The Web Artists, India

Designation: PHP Developer

<https://www.thewebartists.com>

HONORS & AWARDS

- Employee of the month in Sept 2022, Jan 23 at Asset Integrity Engineering,UAE
- Employee of the year in 2020 at Softuvo Solutions, India
- Employee of the month at TWA, India

PERSONAL PROFILE

Name	:	Sandeep Vishwakarma
Date of Birth	:	09th July 1990
Sex	:	Male
Marital Status	:	Married
Nationality	:	Indian

EDUCATION QUALIFICATIONS

- MCA - Integral University, Lucknow (2020) (83%).
- "A" Level – NIELIT New Delhi (2010-2011) (74%).
- "O" Level – NIELIT New Delhi (2008-2009) (64%).
- Intermediate – Government Inter College (2005- 2007) (67%).
- High School – Government Inter College (2003- 2005) (57%).

MAJOR ASSIGNMENTS

Project	Veracity Application
URL	aie-veracity.com
Client	UAE
Technologies	Symfony2.8, JQuery, Ajax, MySQL Server, Python, HighChart
Environment	AWS Cloud, Apache, MySQL, S3 bucket
Role	Senior Software Engineer (Veracity Software Engineer)

Brief description of the project:

Veracity is a web application developed in PHP Symfony2.8. This is an inspection type application for managing piping, corrosion risk and inspection for oil & Gas. And create a risk action level report for asset integrity engineers who is responsible to maintain.

Project	SoftNAS Cloud NAS
URL	https://www.buurst.com/products/softnas/
Client	USA
Technologies	Shell Scripting, Python, Core PHP, NodeJS, NoSQL Server.
Environment	Nginx, Apache Nifi, Linux®-based, 64-bit CentOS
Role	Software Engineer (Promoted as Researcher)

Brief description of the project:

SoftNAS is a Linux-based virtual NAS appliance that's deployed on modern hypervisor-based systems. It runs as a virtual machine, providing a broad range of software-defined capabilities, including data performance, cost management, availability, control, backup and security.

Declaration

I hereby declare the above written particulars are true to the best of my knowledge and belief.
