Chennai , India - 7200687030 - sandhyag042000@gmail.com - <https://www.linkedin.com/in/sandhya-g-95a8b21a3/>

SUMMARY:

Data Engineer with 3+ years of experience delivering end-to-end data solutions, specializing in ETL, Python, and cloud-based services. Certified in Snowflake, Microsoft Azure, and Fivetran. Proven ability to optimize data pipelines, implement scalable solutions, and lead cross-functional teams to drive successful project outcomes. Passionate about leveraging data to solve complex business challenges and continuously improve systems.

SKILLS:

Data Engineering:

ETL -Airflow, Working Knowledge of DataStage, Matillion, Fivetran

Data Warehousing - Snowflake

CDC - Kafka, Debezium

Cloud Services: AWS S3, Azure fundamentals, Azure Databricks (Core Concepts)

Programming Languages: Python, C

Frameworks: Django, Flask, MDP Framework

Database Management: MySQL, Working Knowledge of Netezza

Visualization: Power BI (Fundamentals)

Other: RASA (Chatbot Development Fundamentals), Graph Database (Core Concepts)

CERTIFICATIONS:

Snowflake Snowpro Core

Microsoft Certified: Azure Fundamental

Fivetran Presales professional certification

ACHIEVEMENTS:

October 2023 – Received **Pat on the Back Award** for exemplary project delivery and problem-solving.

May 2023 – Awarded the **Feather in the Cap Award** for outstanding contribution to project delivery, team collaboration, and organizational activities.

2017 – Ranked among the **Top 5** in the department during BE in Computer Science and Engineering.

EDUCATION:

Velammal Institute of Technology | 2017-2021

BE - Computer Science and Engineering | CGPA: 8.8

WORK EXPERIENCE:

CDW TECHNOLOGIES | Consultant | NOV 2023 – Present

- Led ETL development, analysis, and validation to ensure data accuracy and successful project delivery.
- Coordinated technical activities, knowledge transfers, and training for team members.
- Developed the One-Time Migration Tool, speeding up data migration and organizing training for internal teams.

CDW TECHNOLOGIES | Associate Consultant | APR 2022 - NOV 2023

- Developed backend modules for data pipelines and conducted QA analysis to support ETL processes.
- Led project initiatives, delivered technical presentations, and organized events to enhance team engagement.
- Contributed to recruitment activities and supported the company's talent acquisition efforts.

SIRIUS COMPUTER SOLUTIONS | Consultant Trainee | JUL 2021 - APR 2022

- Gained hands-on experience in SQL, Python, Snowflake, and Matillion, conducting ELT operations for AWS data.
- Developed backend systems for internal assets and provided knowledge transfer to peers.
- Participated in non-technical events and recruitment activities.

SIRIUS COMPUTER SOLUTIONS | Intern | JUN 2021 - JUL 2021

- Completed training in HTML, CSS, JavaScript, Java, and MySQL through interactive sessions, regular assessments, and project-based reviews.

PROJECTS:

Leading fitness brand - Data migration project - Developed an automated data pipeline extracting data from AWS to Snowflake using Snowpipe, with transformation via stored procedures and orchestration through Airflow in the MDP framework.

Data build toolkit - Developed a backend development toolkit utilizing NodeJS, database management, and NoSQL design to optimize code and enhance system performance.

CDC data pipeline - Developed a CDC pipeline for an e-commerce dimensional model, using MySQL as the source, Snowflake as the target, and Kafka with Debezium for efficient CDC processing.

One time migration - Developed a migration tool that enables seamless Lift and Shift operations across various systems, allowing data, views, stored procedures, and other objects to be migrated within hours.
