TECHNICAL SKILLS

- PowerBi Service
- SQL(Oracle,MySQL)
- Python
- Django
- Advanced Excel
- Dax Queries
- Data Modeling, Data Validation
- Power Apps, Data Visualization
- Tableau
- Numpy&Pandas
- Data Science AI

CERTIFICATES

- Completed Power BI Training at Besant Technologies, Chennai.
- Completed SQL Development Training at Besant Technologies, Chennai.
- Completed Python Development Training at Besant Technologies, Chennai.

ROLE AND RESPONSIBILT Y

- Monitor and optimize database performance by creating indexes and refining queries, ensuring efficient data retrieval and reducing system load using SQL.
- Proficient in Python, with experience using libraries such as NumPy, Pandas, and Django to streamline data processing and enhance web applications.
- Apply advanced data modeling techniques using Power BI, including data cleansing, building relationships, and utilizing joins. Create conditional and calculated columns, and develop complex formulas for reports using Data Analysis Expressions (DAX).

EDUCATION

Electronics & Communication Engineering(B.E),
Kongunadu college of Engineering & Technology
2014 – 2018 | Trichy, India

LANGUAGES

- English
- Tamil

PROFILE SUMMARY

Data Analyst with 1 year of internship experience at Besant Technologies, specializing in SQL, Python, and Power BI. Eager to leverage analytical skills and technical expertise to drive data-driven decision-making and support personal and organizational growth. Proven ability to collaborate, innovate, and implement strategies that contribute to successful outcomes.

PROFESSIONAL EXPERIENCE

Data Analyst, [Besant Technologies]

January 2024 – present | Chennai

- Developed and applied expertise in data collection, analysis, and visualization to deliver actionable insights, directly supporting strategic business decision-making. Led and collaborated on data-driven projects during an internship, using tools like Excel, SQL, Python, and Power BI to automate reporting processes and improve decision-making efficiency.

Outsourcing Executive, [StarMerx International Inc.]

March 2019 – September 2019 | Bangalore

- Developed and optimized product listings for 15+ e-commerce portals, including Alibaba and Amazon, resulting in a 40% increase in product visibility and a significant boost in monthly sales revenue.

PROJECTS

Police Record Management System

January 2024 – present

Tool: SQL(Oracle)

Description:

- It is a comprehensive SQL-based database solution designed to streamline the recording, storage, and retrieval of police reports. The system offers automated reporting and data analytics to provide insights into crime trends, case resolution rates, and departmental performance metrics, helping law enforcement make informed decisions.

User authentication and Setting Profile picture

January 2024 – present

Tool : Django(Python)

Description:

- Build a Django registration form with fields for username, email, password, and confirm password. Develop and integrate Django views to handle form submissions, successfully registering new users within the first month and improving overall user experience.

Sales Analysis For Sample Store

January 2024 – present

Tool: Power Bi

Description:

- Develop an interactive Power BI dashboard to provide in-depth insights into the sales performance of a retail store, helping stakeholders identify trends and optimize business strategies
