PROJECTS

Faculty/Researchers analysis dashboard

https://www.novypro.com/profile_projects/sathyanague

- The analysis report to know the qualitative & quantitative research statistics of University on which the research performance can be evaluated.
- 10 KPI's to be mounted like overall count, Year wise count, Database count, cumulative citations, National/International collaboration, index status, average on metrics, Institute & Department analysis.
- DAX like count, distinct count, sum, summarize, calculate, average and visualizations like cards, slicer, cluster/stacked chart, pie/doughnut charts are used.
- Department/ Institute performance improvement analysis. The quality and quantity of research output is assessed.
- Through the report, University knows their stand in National Institute Ranking Framework (NIRF) and National Assessment & Accreditation Council (NAAC).

Sales/Return analysis dashboard

Own learnt project

- Completed the own project based on Sales / Returns data and built table relationship using primary / foreign keys in Dimension and Fact tables.
- Mounted KPI's like orders, revenue, profit, return rate, monthly target, trending products, customer detailed report etc.
- Table transformation, modified values, column features, grouping and filtering data, error cleaning are done at the power query editor.
- DAX like Calculate, If, Sum, Average, Switch, Related, All, Filters and visualizations like cards, slicers, charts along with matrix are used.
- Through the output, the client can come to know the business values over profit and revenue.

EDUCATION

Post Graduate Diploma Certificate | OMTD
National Power Training Institute, Bangalore.
