PROFILE SUMMARY: -

- I have **3 Years 6 Months Experience** in Software Development. I have worked on Spring Boot, Hibernate Framework, MySQL and restful web services.
- A Motivated individual with in depth knowledge of Development tools.

TECHINICAL SKILLS: -

- Java, Collection, Multi-threading, Spring Boot, MySQL, Spring MVC, Hibernate, Python, Data Structure, JDBC, Micro-services, GIT, Maven, Restful APIs And JIRA,

PROFESSIONAL EXPERINCE: -

Dassault System [EBOM–PS (Engineering Bill of Materials and Product Structure)]: **July 2022 – July 2024**

Working as Software Developer skilled in Java, Spring Boot, and SQL. Experience in requirements analysis and solutions discussion with customers from business and technical points of view

- Designed, developed, and maintained scalable Java applications using Spring Boot and Hibernate, improving application performance.
- Collaborated with cross-functional teams to gather requirements and implement solutions for a customer-facing platform, enhancing user experience and increasing engagement.
- Worked closely with senior developers to troubleshoot and debug application issues, enhancing system stability and reliability.
- Created a standard, configurable engine for collaboration, significantly enhancing customer ease and efficiency.
- Modified and delivered code for traces improvement with Input and Output trace for each layer of new architecture also added code for traces switching between TNR and physical id apart from that Added traces inside operation collaboration and Cleaned some method Delivered trace.
- Wrote test cases, achieving 90% test coverage and ensuring high-quality code.
- Participated in code reviews and contributed to the improvement of coding standards and best practices.
- Assisted in the documentation of software requirements and design specifications, improving project clarity and communication.
- Utilized version control systems (Git) to manage code changes and collaborate with team members effectively.

5TechG

Jan 2021 – June 2022

Worked as Full-Stack Software Developer with hands on experience in Technical Stack (Spring Boot, Java and MySQL).

- Requirement analyze, design and coding etc.
- Analyzes codes to find causes of errors and revise programs as needed.
- Provides feedback for performance appraisals of team members.
- Prepare the test plan and perform the manual testing.
- Writing well-designed, efficient, and testable code.
- Producing and consuming the restful web services.
- Involved in knowledge sharing activities with team.
- Preparing and maintaining entire documents for projects.
- Analyze the program to identify the code changes as per the business requirements. Support continuous improvement.
- Delivering high availability and performance.
- Contributing in all phases of the Software development lifecycle (SDLC).
- Support continuous improvement.

EDUCATION:

Walchand Collage of Engineering, Sangli Post-Graduation (M.Tech)-[2020-2022]
