

# Selva rama bala subramanian

Tirunelveli, Tamil Nadu • +91 7414841614  
selvaram58@gmail.com • [LinkedIn](#) • [GitHub](#)

Highly skilled Senior Data Analyst with 2.5 years of experience in transforming raw data into actionable insights. Proficient in SQL, Python, and advanced data visualization tools [e.g., Tableau]. Expertise in AI/ML algorithms, including [specific algorithms, e.g., regression, clustering, neural networks, NLP, Huggingface, Transformers, Langchain, FASTAPI, Llama-CPP, RAG] to develop predictive models and automate processes.

---

## *Education*

PGP in Advanced Data Science and Machine Learning, 2023-2024, NIIT, Pune  
B. Tech Mechatronics Engineering, 2017-2021, University of Petroleum & Energy Studies, Dehradun

---

## *Work Experience*

### **Rockman Industries Limited, Tirupati**

#### ***Senior Data Analyst***

07/2024-Present

- Utilized SQL, Python, Tableau, and advanced Excel formulas to analyze large data sets related to Delivery & Marketplace operations, performance, and trends.
- Identifying key insights, patterns, and opportunities for optimization to drive strategic decision-making.
- Conducting root cause analysis to identify underlying issues impacting delivery partner performance, quality and customer experience.
- Designed and implemented financial MIS frameworks to streamline data consolidation, enabling faster and more accurate reporting for decision-making.
- Prepared annual operational budgets, aligning financial forecasts with strategic business goals to support organizational growth.
- Collaborating with cross-functional teams, including Product, Engineering, and Business Development, to execute projects aimed at improving delivery operations and efficiency.
- Generating regular reports and dashboards using Tableau to provide insights into delivery partner performance and operational efficiency.

### **Nova Tech Set Private Limited, Chennai**

#### ***Associate AI ML Developer (R&D)***

06/2023-06/2024

- Trained and fine-tuned Zephyr-7B-Beta model on Grammarly/Coedit dataset, and deployed API on AWS P3 Linux instance for efficient language processing.
- Developed a Streamlit app using Langchain to retrieve answers from text files/CSVs, enabling interactive dataset exploration through a chatbot interface.
- Fine-tuned T5-base-grammar-correction model with a custom dataset, enhancing grammar correction capabilities.
- Contributed to an Image-captioning model, collaborating on its development and optimization.

- Trained Custom Named Entity Recognition(NERs) models using Spacy, resulting in improved information categorization and analysis.
- Executed intent classification utilizing the zero-shot method, contributing to the development of advanced natural language processing(NLP) solutions for efficient and accurate text classification.
- Designed and established a robust Vector Store within PostgreSQL, optimizing data storage and retrieval mechanisms for enhanced performance and scalability.

### **Mindshift Analytics, WFH**

#### ***Data Science Intern***

05/2023-06/2023

- Clean and preprocess sensor data collected from JSW sensors.
- Communicate findings and insights effectively to both technical and non-technical stakeholders.
- Create and develop statistical models for hypothesis testing.
- Conduct data audits to identify and rectify discrepancies.
- Support the identification of opportunities for process improvement and optimization.
- Contribute to the overall data analysis and decision-making processes of the organization.
- Collaborate with colleagues and mentors to enhance model accuracy and performance.

### **Rockman Industries Limited, Tirupati**

#### ***Data Analyst Trainee***

07/2021-04/2022

- Aided improvements in engineering equipment development through strategic data analysis and evaluation.
- Analyze current and past financial data Preparation of weekly MIS of the Plant.
- Prepare reports on the above information and communicate the insights of these reports to the broader plan achievement.
- Working to Minimize the cost utilization of the plant.
- Prepared the Financial Budget of the Plant for the financial year FY 22-23.

---

### ***Technical Skills***

- **Programming Languages:** Python, MySQL
  - **Frameworks:** Streamlit, FastAPI
  - **Developer Tools:** Git, Google colab, VS Code, PyCharm, Jupyter Notebook, Excel, Tableau
  - **Libraries:** Pandas, NumPy, Matplotlib, Seaborn, scikit-learn, Trransformer, Langchain, Tensorflow, keras, pytorch.
- 

### ***Certifications***

- 1) SITRAIN, Basic Automation & SCADA - Siemens, Certificate-ID: 1541886700017
