Executive Profile

- Strategic IT Leader, with over 21 years of rich experience in IT project, Product management, including 14+ years as a Delivery Manager, with expertise in customer-focused delivery models, managing large global teams (~100+ FTEs), overseeing the delivery of diverse services provided by the organization.
- Have successfully led large-scale, high-value initiatives across multiple domains, including Banking (Retail, Private, Digital, Investment), Financial Services to their clients, Risk, Legal, Regulatory Compliance, Medical, and Migration.
- My expertise spans the entire project lifecycle—from solution architecture, design, development, and testing to implementation, maintenance, and support—delivering tailored, high-quality solutions that align with client objectives.
- Extensive experience across Budgeting, Pricing, Planning, Delivery, Costing, and Finance.
- Skilled in both technical and program management disciplines.
- Demonstrated success in delivering innovative products and solutions that align with customer needs and drive organizational success.

Key Expertise:

- **Project, Delivery & Program Management:** Extensive experience in managing complex IT projects and programs, including Application Development, Maintenance, and Support for large financial institutions. Skilled in both T&M and Fixed-Price models, with a focus on resource optimization and meeting SLAs.
- **Agile & Waterfall Methodologies:** Proficient in managing projects in both Agile and Waterfall frameworks, with a proven ability to lead transformations from Waterfall to Agile methodologies, driving enhanced delivery efficiency and faster time-to-market.
- **Service Delivery Management:** Proven ability to lead Service Delivery teams, managing multiple accounts and ensuring client satisfaction in SLA-driven environments. Skilled in overseeing service delivery for next-gen services, digital transformation programs, and ensuring high-quality service while reducing costs.
- **Client & Stakeholder Engagement:** Strong background in liaising with clients, stakeholders, presales, and sales teams to ensure clear communication, requirement mapping, and successful project execution. Expertise in building and maintaining long-term client relationships while managing expectations.
- **Financial & Vendor Management:** Experienced in managing P&L, budgets, and costs, with a focus on maximizing profitability and optimizing IT operations. Expertise in building strategic vendor relationships and leading initiatives to reduce costs without compromising on service quality.
- **Leadership & Team Management:** Proven leadership in guiding cross-functional teams through complex initiatives, managing conflict, and ensuring processes are carried out efficiently. A strong advocate for continuous improvement, Motivational Leadership Strategies, Performance Management, and fostering collaborative team dynamics.
- **Risk Management & Compliance:** Insightful exposure to risk management frameworks, ISO standards, and CMM levels. Skilled in identifying potential risks, ensuring compliance, and driving initiatives to mitigate risks in service delivery and project execution.
- **Customer Success Leadership:** Proven track record of developing strategies to enhance customer experiences and foster long-term relationships.
- **Communication & Social Skills:** Stakeholder Communication, Client Relationship Management, Written & Verbal Communication Proficiency, Negotiation & Persuasion, Public Speaking & Presentation Skills, Active Listening & Feedback Techniques

Core Competencies

IT Project & Product Management	Strategy & Operational IT Planning
Software Development Lifecycle	Liaison, Coordination & Business Dev.
Cost/Resource Optimization	Delivery & Acct. Management
Agile/Scrum Methodology	Client Interaction & Engagements
Stakeholder/ Vendor Management	Team Management & Leadership

Education

- **MCA from** Sant Gadge Baba Amravati University in 2003
- **B.Sc. in Electronics** from Sant Gadge Baba Amravati University in 1999

Soft Skills

Key Achievements:

- Managed projects with revenues exceeding \$4 million, consistently delivering high-quality results on time and within budget.
- Spearheaded the transformation of large programs from traditional to Agile methodologies, enhancing flexibility and responsiveness
- Optimized production deployment procedures, reducing downtime by 15 minutes and improved overall system availability.

International/On-site Exposure

- Possess on-site experience across:
- Abu Dhabi, United Arab Emirates (~1+ month) - Worked from the client location.
- Montreuil, France (~1 month) - Worked from the client location.
- Swindon, United Kingdom (~ 1.9+ years) - Worked from the client location.
- Latin America Symposium, Guadalajara, México (2 weeks) - Presented a paper at the international conference on the topic "*Concise automation best practices for scripting & execution*"
- Westford, Massachusetts (IBM Westford Labs), United States of America (1+ month) - Transition from North America Team to set up Level 2 Technical Support center in Pune, India.

IT Skills

- Methodologies:** Waterfall, V model, Agile model (framework: Scrum, Kanban, etc.). I've gained insight and hands-on experience with the Scaled Agile Framework® (SAFe®) through detailed practical sessions (Pursuing for certification).
- Enterprise application:** Software as a Service (SaaS), Cloud-ICP (IBM Cloud Private), AWS (Pursuing AWS certification), Azure.
- Technical Expertise:** Artificial Intelligence (AI) – Gen AI, Blockchain, SAP (Fieldglass & Ariba), Knowledge of SAP FICO, SAP MM, Digital Banking Development solutions, Mobile Platforms (iOS & Android), MS Dynamics 365 CRM, UI Development (React.js & Angular), Backend (Java, Python, PHP, ASP.NET, Laravel, Node.JS), Full stack, Content Management System (CMS), Microservices, IBM Business Process Manager (BPM), Multi-Cloud environment, Data management (ETL(Extract, Transform, Load) tool, Informatica) and various flavors of MAC & Linux operating system. Familiar with various data analysis and visualization tools, including Excel, Tableau, and Power BI.
