
Shaik Gore Idrush Basha

Azure Data Engineer

 +91-6303113384 |  sgidrusbashaidrus@gmail.com | [LinkedIn](#)

SUMMARY

Highly motivated and results-driven Azure Data Engineer with 2 years of experience in data management, ETL, and software quality assurance. Proven expertise in designing and maintaining large-scale data pipelines using Azure Data Factory, Databricks, PySpark, and SQL. Skilled at transforming raw data into actionable insights and delivering high-performance data solutions. Passionate about optimizing data workflows and ensuring data integrity by adhering to best practices and SOLID design principles.

SKILLS

- **Programming Languages:** Python (Advanced), PySpark (Expert), SQL (Expert)
 - **Databases:** Microsoft SQL Server, MySQL
 - **Data Integration & ETL:** Informatica Intelligent cloud service(IICS), Azure Data Factory (Expert), Informatica Power Center , Databricks (Expert)
 - **Cloud Platforms:** Microsoft Azure, Azure Databricks, Azure Data Lake
 - **Data Modeling:** Data Warehousing, DBT (Basic)
 - **Version Control:** Azure DevOps (Expert)
 - **Soft Skills:** Communication, Teamwork, Problem-Solving, Analytical Thinking.
- Data Visualization:** Power BI
-

EXPERIENCE

Azure Data Engineer

Cognizant Technology Solutions, Hyderabad

December 2023 – September 2024

- Led the migration of a 500 TB legacy data warehouse to a cloud-based solution using Azure Data Factory, reducing processing time by 30% and improving software quality.

- Designed and implemented scalable ETL pipelines using Azure Databricks and PySpark, enhancing data processing efficiency by 25%.
- Developed Databricks notebooks for complex data validation, streamlining workflows for data transformation and validation tasks.
- Collaborated with cross-functional teams to improve data quality and decision-making by reducing data errors by 15%.
- Applied advanced SQL queries for data extraction, transformation, and loading across multiple data sources.

KM IT-US ITO SS (Azure Data Engineer)

Cognizant Technology Solutions, Hyderabad

December 2023 – September 2024

- Optimized data flow across IT systems using Azure Data Factory, improving data accessibility for US-based teams.
- Built and maintained automated ETL pipelines, significantly improving data accuracy and reducing manual errors.
- Utilized Azure DevOps to manage the entire project lifecycle, driving high-quality assurance standards throughout development and deployment.
- Improved operational efficiency by 25% through data-driven insights and solutions.

Vendor Data Consolidation (Azure Data Engineer Trainee)

Cognizant Technology Solutions, Hyderabad

December 2022 – December 2023

- Consolidated vendor data from 20 disparate systems into a centralized data warehouse using MySQL and Informatica PowerCenter, reducing manual reconciliation by 10%.
- Optimized data loading performance by 25%, ensuring faster and more reliable data retrieval.
- Focused on data validation and quality assurance, improving data accuracy by 25%.

Internship: Customer Segmentation and Analytics

Cognizant Technology Solutions

February 2022 – July 2022

- Analyzed 1 million customer records using SQL to create data models and segments, enhancing customer satisfaction and retention.
 - Implemented machine learning models using Python to drive targeted marketing campaigns, increasing customer satisfaction by 18%.
-

CERTIFICATIONS & ACHIEVEMENTS

- AWS Cloud Practitioner Certification
 - Informatica MDM SaaS Exam Qualified
 - Google Cloud Digital Leader Certification
 - Actively pursuing Azure Databricks Certification
-

EDUCATION

G. Pulla Reddy Engineering College, Kurnool

B.Tech in Mechanical Engineering | July 2022 | **CGPA:** 7.14
