Academic Details

- Bachelor of Technology (I.T)**
Institute of
Engineering and
Technology,
Ayodhya,
Uttar Pradesh
Year: 2023
with 82%
CGPA: 8.63

Soft Skills

Quick Learner | Team Work | Adaptable

Technical Skills

- Programming Languages:**
C, Python, SQL, HTML, CSS, JS
- Frameworks, Libraries:**
Bootstrap, Django

Personal Details

Date of Birth: 24th Nov 2000

Languages Known: English, Hindi

Address: #B-207, BM Silverwood
Building, 27th Main Road, near power grid, 2nd
sector, HSR layout
Bengaluru
Karnataka
Pin – 560102
India

Certificates & Achievements

Achieved 5 stars in Hacker Rank in Python,
SQL

Profile Summary

- Highly motivated and detail-oriented **Python Developer** with hands-on experience in **Python and Django**.
- Proficient in writing efficient code, debugging, and collaborating with cross-functional teams.
- Demonstrates **strong problem-solving skills** and a passion for **learning new technologies**.
- Eager to contribute to a **dynamic team** and grow in the field of **software development**.

Work Experience

- Full Stack Web Development Training Python with Django

Trainee

Softpro India Computer Technologies PVT. LTD., Lucknow
February 2024 – October 2024

Responsibilities:

- Developed and maintained full-stack web applications using Python and Django, ensuring responsive and user-friendly interfaces.
- Utilized Django's ORM to interact with the database, creating and managing data models and migrations.
- Implemented RESTful APIs for seamless communication between front-end and back-end systems, enhancing application functionality.
- Debugged and resolved technical issues, improving code quality and application performance through rigorous testing and code reviews.
- Integrated third-party libraries and APIs to extend application functionality, providing enhanced features like authentication, data visualization, and payment processing.
- Optimized front-end performance by implementing lazy loading and using Django's built-in caching, resulting in faster load times and an improved user experience.

PROJECTS

eCommerce website

Tools: Bootstrap, Django

Role: Full-Stack web application

Shopcart is an e-commerce platform built using Django that allows users to browse products, manage their shopping cart, and securely complete purchases. Key features include user authentication, product categories, detailed product views, a shopping cart system, checkout functionality, and payment integration. The platform also supports user profiles for managing order histories and shipping addresses. The project follows a modular design with efficient database management using Django's ORM, making it easy to maintain and scale.

Artistic Avenue

Tools: Bootstrap, Django

Roles: Full-Stack web application

It is a web-based platform developed using Django, designed for art enthusiasts and creators. It offers a virtual gallery where users can explore, upload, and showcase artwork across various categories. Artists can create profiles, upload their creations with descriptions, and connect with potential buyers. With a focus on user-friendly design.
