Summary

MCA graduate and proficient software developer with expertise in Python, Java, and full-stack web technologies, adept at creating scalable applications, RESTful APIs, and secure backend systems using Django.

Technical Skills

Programming Languages: Python, Java, JavaScript, HTML/CSS

Frameworks Libraries: Django, Flask, React, FastAPI, RESTful APIs.

Tools Platforms:: Git, Pycharm, Docker, Google Cloud Platform, VS Code, IntelliJ, Eclipse.

Databases: SQL, NoSQL, MongoDB, Firebase

Experience

Python Developer Intern

Feb 2024 - Present

Royals Webtech Pvt. Ltd

Nagpur, Maharashtra

- Increased document processing efficiency by 20% through the integration of Groundlight AI with Tesseract OCR for data extraction.
- Boosted user engagement by 15% by implementing Dark Mode using JavaScript
- Enhanced code quality and collaboration through contributions to open-source projects, leading to a 10% increase in project visibility.

Backend Developer Intern

Sep. 2021 - April 2022

IRIS Business Services Limited

Vashi, Navi Mumbai

- Optimized data retrieval processes for RBI-CIMS by integrating Firebase and BigQuery, reducing query times by 30%.
- Automated 400+ test cases with Python, cutting manual testing time by 40% and improving validation efficiency.
- Led the execution of extensive test cases, contributing to a 25% reduction in post-release bugs.

Projects

ClickNCarry | *Python, SQL, Django, Git, Django, Authentication, Payment integration*

- Led the development of a user-centric e-commerce platform with Django, including features like Add to Cart and Quantity Update, improving user satisfaction by 20%.
- Successfully integrated PayPal Payment Gateway, increasing secure transaction rates by 15%.
- Optimized database performance by designing efficient SQL queries, leading to a 25% reduction in page load times during peak shopping periods.

Blogify: Django Blogging Platform | *Python, Django, SQL, HTML, CSS, Auth.*

- Architected a feature-rich blogging platform with Django, allowing users to create, update, and manage blog posts, leading to a 25% boost in user engagement.
- Integrated advanced image processing for profile picture uploads, including resizing and format conversion, enhancing user personalization and platform usability.
- Developed modular and reusable components in Django, reducing development time for future enhancements by 30%.

MealMate API: Personalized Recipe and Meal Planning | *HTML, CSS, JavaScript, Django, REST API*

- Engineered a full-stack web application using Django and RESTful APIs, enabling dynamic recipe suggestions from TheMealDB API to personalize meal planning.
- Built a responsive user interface with HTML, CSS, and JavaScript, ensuring seamless cross-platform functionality and improving user retention by 15%.
- Integrated comprehensive API endpoints for retrieving and displaying detailed recipe information, including nutritional data and cooking tutorials, leading to a 20% increase in user interaction.

EDUCATION

MCA - Masters Of Computer Application

2022 – 2024

GHRUA - G H Rasoni University, Amravati - CGPA - 9.07

Amravati, Maharashtra

- Technical Courses: Data Structures and Algorithms, Operating Systems, Database Management, Object-Oriented Programming, Analysis of Algorithms.
