PROFILE

Experienced professional with over 7 years of expertise in automation, data analysis, and process optimization. Proficient in developing and deploying Robotic Process Automation (RPA) solutions using UiPath, alongside strong skills in Power Automate, Power BI, and advanced Excel (Macros). Demonstrates a proven track record of improving operational efficiency and enabling data-driven decision-making through automation and analytics.

WORK EXPERIENCE

Intern | CUBIKSOFT TECHNOLOGIES

Coimbatore, Tamil Nadu | Aug 2024 – Jan 2025

- **Beginner-Level Projects:**
 - **Email Automation:** Automated reading emails from an inbox (e.g., Outlook or Gmail), extracted specific details (e.g., subject, attachments), and saved attachments to a folder or forwarded emails based on conditions.
 - **Data Extraction and Entry:** Read data from an Excel file, entered the data into a web-based form, and validated/logged successful entries.
 - **File Management:** Monitored a folder for new files, moved or renamed files based on extensions or content, and generated logs for processed files.
 - **Web Scraping:** Scraped product prices, descriptions, or stock details from an e-commerce website and saved the data into Excel or a database for analysis.
 - **Invoice Processing:** Extracted key details (invoice number, date, amount) from PDF invoices and saved the details into an Excel sheet or database.
- **Intermediate-Level Projects:**

- **Social Media Automation:** Logged into a social media account (e.g., Twitter or LinkedIn), posted updates, sent connection requests, and automated likes, follows, or comments based on predefined criteria.
- **Attendance Tracker:** Automated reading an Excel sheet with attendance data and sent automated emails or notifications to absentees.
- **CRM Data Entry:** Pulled customer details from a database or Excel and automated the process of entering customer details into a CRM system.
- **PDF Data Extraction:** Used the Document Understanding feature to extract data from structured or semi-structured PDFs (e.g., resumes, reports).
- **Stock Market Data Analysis:** Scraped live stock prices or historical data from a stock market website and generated charts or reports using Excel.
- **Advanced-Level Projects:**
 - **ChatGPT Integration:** Integrated UiPath with a ChatGPT to automate backend processes based on user queries.
 - **Invoice to Payment Automation:** Automated the end-to-end process of reading invoices, validating them, and initiating payments in an ERP system.
 - **IT Service Desk Automation:** Automated common IT service desk requests like password resets or account unlocks and sent updates via email or messaging apps.
 - **Employee Onboarding:** Automated the creation of employee records in HR systems, sent welcome emails, and set up default accounts or permissions.
 - **AI-Powered Data Classification:** Used UiPath's AI Center to classify documents (e.g., invoices, receipts, contracts) and route documents to appropriate departments based on classification.

Data Quality Analyst | IDP Education India Services LLP

Chennai, Tamil Nadu | Feb 2023 – July 2024

- Designed and implemented RPA workflows using UiPath to automate student email extraction based on policy numbers, reducing manual workload and increasing accuracy.
- Conducted end-to-end User Acceptance Testing (UAT) to validate system performance for new implementations.
- Analyzed and processed admission requirements for international courses, ensuring compliance with academic standards.
- Collaborated with cross-functional teams to ensure accurate data entry and policy adherence for Offer in Principle courses.

Senior Data Analyst | IDP Education India Services LLP

Chennai, Tamil Nadu | Oct 2016 – Jan 2023

- Automated repetitive tasks using UiPath, including data extraction from university websites, saving time and improving operational efficiency.
 - Managed the Study Adelaide APAC project for 2 years, ensuring accurate and timely updates of website data.
 - Built and maintained Power BI dashboards to visualize team performance and project progress, enabling informed decision-making.
 - Conducted data collection and validation using tools like Import.io and Excel functions (XLOOKUP, VLOOKUP).
-
