tomarshiva7017@gmail.com

SUMMARY

Detail-oriented and highly motivated Data Analyst with strong analytical, problem-solving, and technical skills. Proficient in data collection, cleaning, and visualization to support data-driven decision-making. Eager to apply academic knowledge and internship experience to real-world data analysis projects. Skilled in SQL, Python, Excel, and data visualization tools.

TECHNICAL SKILLS

Programming Language : Python

Data Analysis Tools : MySQL, PowerBI, Excel(Advanced)

Databases : MYSQL

Soft Skills : Analytical Thinking, Attention to Details, Communication, Collaboration

EXPERIENCE

Tynatech Ingenious Pvt. Ltd. - Data Analyst June 2023 - Sept 2023

- Designed and developed interactive dashboards and reports in Power BI, providing actionable insights to business stakeholders.
- Created complex DAX measures and calculations to support advanced data analysis and reporting requirements.
- Optimized Power BI reports and data processing, reducing the report size from 1.3 GB to 325 MB, resulting in a 75% reduction in storage requirements. Enhanced report performance by reducing generation time by 40%, providing stakeholders with faster access to insights and improving their user experience.
- Integrated data from multiple sources, including SQL Server, Excel, and cloud-based data platforms. Collaborated with business analysts and end-users to gather requirements and ensure the accuracy and relevance of reports. Implemented Row-Level Security(RLS) to restrict data access based on user roles, ensuring sensitive data is only accessible to authorized personnel.
- Conducted training sessions for end-users to enhance their ability to utilize Power BI for their reporting needs.

Sharmsamarthan Pvt. Ltd. - Data Analyst Training Nov 2023 - Dec 2023

- Built student report management system, CRUD operations are used, extracted and collected the data using SQL.
- Designed, developed and integrated APIs for user authentication and data storage management.

PROJECTS

Sales Analysis Dashboard

- Analyze sales data and create an interactive dashboard to monitor KPIs like revenue, profit, and sales trends.
- Tools: Tableau, Excel, SQL
- Key Activities: Data cleaning, generating insights on sales trends, and creating visualizations for key metrics.

Excel Sales Data Analysis

- Analyze sales data stored in Excel to identify monthly sales trends and product performance.
- Tools: Microsoft Excel
- Key Activities: Data cleaning, creating pivot tables, calculating KPIs (e.g., total sales, average order value), and creating charts for visualization.

Basic SQL Queries on Sample Database

- Use a sample database (e.g., a library or e-commerce dataset) to write SQL queries to retrieve insights.
- Tools: MySQL
- Key Activities: Writing SELECT, GROUP BY, and JOIN queries to find top-selling products, most frequent customers, or revenue by region.

EDUCATION

High School | Gagan Public School, Aligarh

- Board : ICSE 2017 - 2018

Intermediate | Gagan Public School, Aligarh

- Board : ICSE 2019 - 2020

Bachelor of Technology (IT) | IIMT COLLEGE OF ENGINEERING, Greater Noida 2020 - 2024

- University : AKTU

ACHIEVEMENTS

- Python training and assessment classes(Perks - Certificate).
- Participated in Cloud Computing assessment and learning workshop.
- Participated in Cyber Security protocol workshop.
- Communication and Personality Development classes by TPC Global(Perks- Daily classes & Certificate).
